Mission

To provide a high-quality education that assures each student the knowledge, skills, and dispositions to lead a life of purpose and impact.

Pueblo City Schools does not discriminate on the basis of race, color, creed, national origin, ancestry, sex, sexual orientation, age, disability, religion, or other status protected by law in admission or access to, or treatment and employment in, its programs and activities. Additionally, a lack of English language skills is not a barrier to admission or participation in activities, programs and employment. The following individual has been designated to handle inquiries regarding the non-discrimination policies: EEO/Affirmative Action/Title IX/Section 504 Compliance Officer, 315 West 11th Street, Pueblo, Colorado 81003, (719) 549-7100.

Si tiene alguna pregunta sobre esta información, por favor llame a la escuela de su niño.

Both Family Educational Rights and Privacy Act and Colorado Law require that parents and eligible students be given notice, on an annual basis, of their rights under FERPA. These rights are: Right to inspect and review, Right to request amendments, Right to consent to disclosure when consent is required; and Right to file a complaint of FERPA violations.

These policies may be amended from time to time by Board action. Parents and students are advised to check the District's website and the office for the most up-to-date version.

PUEBLO CITY SCHOOLS

Dear Parent/Legal Guardian:

The original Student Discipline Code, 1985, was initiated as a result of legislation (S.B. 192 of 1984) charging local school districts to develop a discipline code which would include, but not be limited to, provisions to deal with disorderly students in a manner which allows other students to learn in an atmosphere which is safe, conducive to the learning process, and free from unnecessary disruption. The Board of Education approved the Code on June 25, 1985. Annual updated versions were initiated in regard to a need to provide a philosophical and procedural basis for student discipline and to reflect changes in state legislation.

Please sign and return this form to your child's school the next day of receiving this handbook.

Dear Parents, Guardians and Students:

Pueblo City Schools is committed to be a high performing school system with a focus on improved student achievement so that all students are successful in graduating from our high schools with a plan for their future. With that vision in mind, Pueblo City Schools has developed the Student Conduct and Discipline Code to clearly communicate the behavioral expectations necessary for maintaining a safe and orderly learning environment.

The Student Conduct and Discipline Code outlines the policies and procedures relative to student conduct and discipline for Pueblo City Schools. Students and parents/guardians should use it as a reference. Parents are asked to review these policies and procedures with your children and to remind them that school is a place for learning, good attendance, positive attitudes and good behavior.

These policies and procedures will assist us in maintaining a safe and productive learning environment for your student. It is our hope that all students will feel safe, share the responsibility for maintaining a positive school climate, and take pride in their school and their achievements.

These policies and procedures are also on file at your school and on the district's website at www.pueblocitieschools.us. If you have any questions, please contact your school principal.

Nondiscrimination/Equal Opportunity

The Board is committed to providing a safe learning and work environment where all members of the school community are treated with dignity and respect. The schools in the district are subject to all federal and state laws and constitutional provisions prohibiting discrimination in relation to race, creed, color, sex, sexual orientation, gender identity/expression, national origin, religion, ancestry or need for special education services. Accordingly, no otherwise qualified student, employee, applicant for employment or member of the public shall be excluded from participation in, be denied the benefits of, or be subjected to unlawful discrimination under any district program or activity on the basis of race, color, national origin, ancestry, creed, religion, sex (which includes marital status), sexual orientation, gender identity/expression, disability or need for special education services. Discrimination against employees and applicants for employment based on age and genetic information is also prohibited in accordance with state and/or federal law.

This policy and regulation shall be used to address all concerns regarding unlawful discrimination and harassment, except those regarding sexual harassment which are addressed in policies GBAA and JBB*.

In keeping with these statements, the following shall be objectives of this school district:

1. To promote the rights and responsibilities of all individuals as set forth in the state and federal constitutions, pertinent legislation and applicable judicial interpretations.
2. To encourage positive experiences in terms of human values for children and adults who have differing personal and family characteristics or who come from various socio-economic, racial and ethnic groups.
3. To utilize educational experiences to build each individual's pride in the community in which he or she lives.
4. To initiate a process of reviewing all policies and practices of this school district in order to achieve the objectives of this policy to the greatest extent possible.
5. To investigate and resolve promptly any complaints of unlawful discrimination and harassment.
6. To investigate and appropriately discipline staff and students found to be responsible for incidents of harassment or unlawful discrimination in violation of district policy.

Annual notice

The district shall issue a written notice prior to the beginning of each school year that advises students, parents, employees and the general public that the educational programs, activities and employment opportunities offered by the district are offered without regard to race, color, sex (which includes marital status), sexual orientation, gender identity/expression, religion, national origin, ancestry, creed, disability or need for special education services. With respect to employment practices, the district shall also issue written notice that it does not discriminate on the basis of age or genetic information. The announcement shall also include the name/title, address, email address and telephone number of the person designated to coordinate Title IX and Section 504 and ADA compliance activities.

The notice shall be disseminated to persons with limited English language skills in the person's own language. It shall also be made available to persons who are visually or hearing impaired.

The notice shall appear on a continuing basis in all district media containing general information, including: teachers' guides, school publications, the district's website, recruitment materials, application forms, vacancy announcements, student handbooks, school program notices, summer program newsletters and annual letters to parents.

Harassment is prohibited

Harassment based on a person's race, color, national origin, ancestry, creed, religion, sex (which includes marital status), sexual orientation, gender identity/expression, disability or need for special education services is a form of discrimination prohibited by state and federal law. Preventing and remedying such harassment in schools is essential to ensure a nondiscriminatory, safe environment in which students can learn, employees can work and members of the public can access and receive the benefit of district facilities and programs. All such harassment, by district employees, students and third parties, is strictly prohibited.

All district employees and students share the responsibility to ensure that harassment does not occur at any district school, on any district property, at any district or school-sanctioned activity or event, or off school property when such conduct has a nexus to the school, or any district curricular or non-curricular activity or event.

For purposes of this policy, harassment is any unwelcome, hostile and offensive verbal, written or physical conduct based on or directed at a person's race, color, national origin, ancestry, creed, religion, sex, sexual orientation,

gender identity/expression, disability or need for special education services that: (1) results in physical, emotional or mental harm, or damage to property; (2) is sufficiently severe, persistent, or pervasive that it interferes with an individual's ability to participate in or benefit from an educational program or activity or creates an intimidating, hostile or threatening environment; or (3) substantially disrupts the orderly operation of the school. Board policy on sexual harassment (GBAA for employees and JBB* for students) will apply to complaints alleging sexual harassment.

Harassing conduct may take many forms, including but not limited to:

1. verbal acts and name-calling;
2. graphic depictions and written statements, which may include use of cell phones or the Internet;
3. other conduct that may be physically threatening, harmful or humiliating.

Reporting unlawful discrimination and harassment

Any student who believes he or she has been a victim of unlawful discrimination or harassment as defined in Board policy, or who has witnessed such unlawful discrimination or harassment, shall immediately report it to an administrator, counselor, teacher or the district's compliance officer and file a complaint as set forth in the regulation which accompanies this policy.

Any employee, applicant for employment or member of the public who believes he or she has been a victim of unlawful discrimination or harassment, or who has witnessed such unlawful discrimination or harassment, shall file a complaint with either an immediate supervisor or the district's compliance officer.

If the individual alleged to have engaged in prohibited conduct is the person designated as the compliance officer, the complaint shall be made to the superintendent who shall designate an alternate compliance officer to investigate the matter.

District action

All district employees who witness unlawful discrimination or harassment shall take prompt and effective action to stop it, as prescribed by the district.

The district shall take appropriate action to promptly and impartially investigate allegations of unlawful discrimination and harassment, to end unlawful behavior, to prevent the recurrence of such behavior and to prevent retaliation against the individual(s) who files the complaint and/or any person who participates in the investigation. When appropriate, the district shall take interim measures during the investigation to protect against further unlawful discrimination, harassment or retaliation.

To the extent possible, all reports of unlawful discrimination or harassment will be kept confidential. Students or employees who knowingly file false complaints or give false statements in an investigation shall be subject to discipline, up to and including suspension/expulsion for students and termination of employment. No student, employee or member of the public shall be subject to adverse treatment in retaliation for any good faith report of harassment under this policy.

Upon determining that incidents of unlawful discrimination or harassment are occurring in particular district settings or activities, the district shall implement measures designed to remedy the problem in those areas or activities.

Any student or employee who engages in unlawful discrimination or harassment shall be disciplined according to applicable Board policies and the district shall take reasonable action to restore lost educational or employment opportunities to the victim(s).

In cases involving potential criminal conduct, the compliance officer shall determine whether appropriate law enforcement officials should be notified.

Notice and training

To reduce unlawful discrimination and harassment and ensure a respectful school environment, the administration is responsible for providing notice of this policy to all district schools and departments. The policy and complaint process shall be referenced in student and employee handbooks and otherwise available to all students, staff and members of the public through electronic or hard-copy distribution.

Students and district employees shall receive periodic training related to recognizing and preventing unlawful discrimination and harassment. District employees shall receive additional training related to handling reports of unlawful discrimination and harassment. The training will include, but not be limited to:

- awareness of groups protected under state and federal law and/or targeted groups;

- how to recognize and react to unlawful discrimination and harassment; and
- proven harassment prevention strategies.

The district is committed to providing a working and learning environment that is free from unlawful discrimination and harassment. The district shall promptly respond to concerns and complaints of unlawful discrimination and/or harassment; take action in response when unlawful discrimination and/or harassment is discovered; impose appropriate sanctions on offenders in a case-by-case manner; and protect the privacy of all those involved in unlawful discrimination and/or harassment complaints as required by state and federal law. When appropriate, the complaint shall be referred to law enforcement for investigation.

The district has adopted the following procedures to promptly and fairly address concerns and complaints about unlawful discrimination and/or harassment. Complaints may be submitted orally or in writing.

Definitions

1. “Compliance officer” means an employee designated by the Board to receive complaints of alleged unlawful discrimination and harassment. The compliance officer shall be identified by name/title, address, telephone number and email address. See exhibit AC-E-1. If the designated individual is not qualified or is unable to act as such, the superintendent shall designate an administrator who shall serve until a successor is appointed by the Board.
2. “Aggrieved individual” shall mean a student, the parents or guardians of a student under the age of 18 acting on behalf of a student, an employee of the district, or member of the public who is directly affected by and/or is witness to an alleged violation of Board policies prohibiting unlawful discrimination or harassment.

Compliance officer’s duties

The compliance officer shall be responsible for conducting an investigation and coordinating all complaint procedures and processes for any alleged violation of federal or state statute or Board policy prohibiting unlawful

discrimination or harassment. The compliance officer's duties shall include providing notice to students, parents/guardians of students, employees and the general public concerning the compliance process, providing training for district staff regarding the prohibition of discrimination/harassment in all district programs, activities and employment practices, disseminating information concerning the forms and procedures for the filing of complaints, ensuring the prompt investigation of all complaints, coordinating hearing procedures, and identifying and addressing any patterns or systemic problems that arise during the review of complaints. The compliance officer may delegate any or all of the foregoing responsibilities as necessary and/or appropriate under the circumstances.

Complaint procedure

An aggrieved individual is encouraged to promptly report the incident as provided in Board policy and this regulation. All reports received by teachers, counselors, principals or other district employees shall be promptly forwarded to the compliance officer. If the compliance officer is the individual alleged to have engaged in the prohibited conduct, the complaint shall be forwarded to the superintendent.

Any aggrieved individual may file with the compliance officer a complaint charging the district, another student or any school employee with unlawful discrimination or harassment. Complaints may be made orally or in writing. Persons who wish to file a written complaint shall be encouraged to use the form in AC-E-2.

All complaints shall include a detailed description of the alleged events, the dates the alleged events occurred and names of the parties involved, including any witnesses. The complaint shall be made as soon as possible after the incident.

The compliance officer shall confer with the aggrieved individual and/or the alleged victim of the unlawful discrimination or harassment as soon as is reasonably possible, but no later than 10 school days following the district's receipt of the complaint in order to obtain a clear understanding of the basis of the complaint.

Within 5 school days following the initial meeting with the aggrieved individual and/or alleged victim, the compliance officer shall attempt to meet with the individual alleged to have engaged in the prohibited conduct and, if a student, his or her parents/guardians in order to obtain a response to the complaint. Such person(s) shall be informed of all allegations that, in the compliance officer's judgment, are necessary to achieve a full and accurate disclosure of material information or to otherwise resolve the complaint.

At the initial meetings, the compliance officer shall explain the avenues for informal and formal action, provide a description of the complaint process, and explain that both the victim and the individual alleged to have engaged in prohibited conduct have the right to exit the informal process and request a formal resolution of the matter at any time. The compliance officer shall also explain that whether or not the individual files a written complaint or otherwise requests action, the district is required by law to take steps to correct the unlawful discrimination or harassment and to prevent recurring unlawful discrimination, harassment or retaliation against anyone who makes a report or participates in an investigation. The compliance officer shall also explain that any request for confidentiality shall be honored so long as doing so does not preclude the district from responding effectively to prohibited conduct and preventing future prohibited conduct.

Informal action

If the aggrieved individual and/or the individual alleged to have engaged in the prohibited conduct requests that the matter be resolved in an informal manner and/or the compliance officer believes that the matter is suitable to such resolution, the compliance officer may attempt to resolve the matter informally through mediation, counseling or other non-disciplinary means. If both parties feel a resolution has been achieved through the informal process, then no further compliance action must be taken. No party shall be compelled to resolve a complaint of unlawful discrimination or harassment informally and either party may request an end to an informal process at any time. Informal resolution shall not be used to process complaints against a school employee and shall not be used between students where the underlying offense involves sexual assault or other act of violence.

Formal action

If informal resolution is inappropriate, unavailable or unsuccessful, the compliance officer shall promptly investigate the allegations to determine whether and/or to what extent, unlawful discrimination or harassment has occurred. The compliance officer may consider the following types of information in determining whether unlawful discrimination or harassment occurred:

- a. statements by any witness to the alleged incident,
- b. evidence about the relative credibility of the parties involved,
- c. evidence relative to whether the individual alleged to have engaged in prohibited conduct has been found to have engaged in prohibited conduct against others,

- d. evidence of the aggrieved individual and/or alleged victim’s reaction or change in behavior following the alleged prohibited conduct,
- e. evidence about whether the alleged victim and/or aggrieved individual took action to protest the conduct,
- f. evidence and witness statements or testimony presented by the parties involved,
- g. other contemporaneous evidence, and/or
- h. any other evidence deemed relevant by the compliance officer.

In deciding whether conduct is a violation of law or policy, all relevant circumstances shall be considered by the compliance officer, including:

- a. the degree to which the conduct affected one or more student’s education or one or more employee’s work environment,
- b. the type, frequency and duration of the conduct,
- c. the identity of and relationship between the individual alleged to have engaged in the prohibited conduct and the aggrieved individual and/or alleged victim,
- d. the number of individuals alleged to have engaged in the prohibited conduct and number of victims of the prohibited conduct,
- e. the age of the individual alleged to have engaged in the prohibited conduct and the aggrieved individual and/or alleged victim,
- f. the size of the school, location of the incident and context in which it occurred,
- g. other incidents at the school.

The compliance officer shall prepare a written report containing findings and recommendations, as appropriate, and submit the report to the superintendent within 20 days following the compliance officer’s receipt of the complaint or 10 days following the termination of the informal resolution process. The compliance officer’s report shall be advisory and shall not bind the superintendent or the district to any particular course of action or remedial measure. Within 10 school days after receiving the compliance officer’s findings and recommendation, the superintendent or designee shall determine any sanctions or other action deemed appropriate, including if appropriate recommendations to the Board for disciplinary or other action.

Equal Educational Opportunities

File: JB

Every student of this school district shall have equal educational opportunities through programs offered in the school district regardless of race, color, ancestry, creed, sex, sexual orientation, gender identity/expression, religion, national origin, marital status, disability or need for special education services.

This concept of equal educational opportunity shall guide the Board and staff in making decisions related to school district facilities, selection of educational materials, equipment, curriculum and regulations affecting students. Students with identified physical and mental impairments that constitute disabilities shall be provided with a free appropriate public education, consistent with the requirements of federal and state laws and regulations.

In order to ensure that district programs are in compliance with applicable laws and regulations, the Board directs the superintendent or designee(s) to periodically monitor the following areas:

1. Curriculum and materials – review curriculum guides, textbooks and supplemental materials for discriminatory bias.
2. Training – provide training for students and staff to identify and alleviate problems of discrimination.
3. Student access – review programs, activities and practices to ensure that all students have equal access and are not segregated except when permissible by law or regulation.
4. District support – ensure that district resources are equitably distributed among school programs including but not limited to staffing and compensation, facilities, equipment and related matters.
5. Student evaluation instruments – review tests, procedures and guidance and counseling materials for stereotyping and discrimination.

Sexual Harassment

File: JBB

The Board recognizes that sexual harassment can interfere with a student's academic performance and emotional and physical well-being and that preventing and remedying sexual harassment in schools is essential to ensure a nondiscriminatory, safe environment in which students can learn. In addition, sexual harassment is recognized as a form of sex discrimination and thus is a violation of the laws which prohibit sex discrimination, as addressed in Board policy AC.

District's commitment

The district is committed to maintaining a learning environment that is free from sexual harassment. It shall be a violation of policy for any staff member to harass students or for students to harass other students through conduct or communications of a sexual nature or to retaliate against anyone who reports sexual harassment or participates in a harassment investigation.

The district shall investigate all indications, informal reports and formal grievances of sexual harassment by students, staff or third-parties and appropriate corrective action shall be taken. Corrective action includes taking all reasonable steps to end the harassment, to make the harassed student whole by restoring lost educational opportunities, to prevent harassment from recurring and to prevent retaliation against anyone who reports sexual harassment or participates in a harassment investigation.

Sexual harassment prohibited

Unwelcome sexual advances, requests for sexual favors, or other verbal, non-verbal or physical conduct of a sexual nature may constitute sexual harassment, even if the harasser and the student being harassed are the same sex and whether or not the student resists or submits to the harasser, when:

1. Submission to such conduct is made either explicitly or implicitly a term or condition of a student's participation in an education program or activity.
2. Submission to or rejection of such conduct by a student is used as the basis for education decisions affecting the student.
3. Such conduct is sufficiently severe, persistent or pervasive such that it limits a student's ability to participate in or benefit from an education program or activity or it creates a hostile or abusive educational environment. For a one-time incident to rise to the level of harassment, it must be severe.

Any conduct of a sexual nature directed by a student toward a staff member or by a staff member to a student is presumed to be unwelcome and shall constitute sexual harassment.

Acts of verbal or physical aggression, intimidation or hostility based on sex, but not involving conduct of a sexual nature may also constitute sexual harassment.

Sexual harassment as defined above may include, but is not limited to:

1. sex oriented verbal "kidding," abuse or harassment,
2. pressure for sexual activity,

3. repeated remarks to a person with sexual implications,
4. unwelcome touching, such as patting, pinching or constant brushing against the body of another,
5. suggesting or demanding sexual involvement, accompanied by implied or explicit threats concerning one's grades or similar personal concerns,
6. sexual violence.

Reporting, investigation and sanctions

Students are encouraged to report all incidences of sexual harassment to either a teacher, counselor or principal in their school building and file a complaint, through the district's complaint and compliance process (AC-R). All reports and indications from students, district employees and third-parties shall be forwarded to the compliance officer (AC-E-1).

If the individual alleged to have engaged in prohibited conduct is the person designated as the compliance officer, the complaint shall be made to the superintendent who shall designate an alternate compliance officer to investigate the matter.

All matters involving sexual harassment reports shall remain confidential to the extent possible as long as doing so does not preclude the district from responding effectively to the harassment or preventing future harassment. Filing of a complaint or otherwise reporting sexual harassment shall not reflect upon the individual's status or affect grades.

In determining whether alleged conduct constitutes sexual harassment, the totality of the circumstances, the nature of the conduct, and the context in which the alleged conduct occurred shall be investigated.

Any student found to have engaged in sexual harassment shall be subject to discipline, including, but not limited to, being placed under a remedial discipline plan, suspension or expulsion, subject to applicable procedural requirements and in accordance with applicable law. Conduct of a sexual nature directed toward students shall, in appropriate circumstances, be reported as child abuse for investigation by appropriate authorities in conformity with policy JLF.

Notice and training

Notice of this policy shall be circulated to all district schools and departments and incorporated in all student handbooks.

Students and district employees shall receive periodic training related to recognizing and preventing sexual harassment. District employees shall receive additional periodic training related to handling reports of sexual harassment.

Compulsory Attendance Ages

File: JEA

Every child who has attained the age of six years on or before August 1 of each year and is under the age of 17 is required to attend public school with such exceptions as provided by law. It is the parents' responsibility to ensure attendance.

The courts may issue orders against the child, child's parent, or both compelling the child to attend school or the parent to take reasonable steps to assure the child's attendance. The order may require the parent, child, or both to follow an appropriate attendance and/or behavior plan that addresses problems affecting the child's school attendance and that ensures an opportunity for the child to obtain a quality education.

Student Absences and Excuses

File: JH

One criteria of a student's success in school is regular and punctual attendance. Frequent absences may lead to poor academic work, lack of social development and possible academic failure. Regular attendance is of utmost importance for school interest, social adjustment and scholastic achievement. No single factor may interfere with a student's progress more quickly than frequent tardiness or absence.

According to state law, it is the obligation of every parent/guardian to ensure that every child under their care and supervision receives adequate education and training and, if of compulsory attendance age, attends school.

Continuity in the learning process and social adaptation is seriously disrupted by excessive absences. In most situations, the work missed cannot be made up adequately. Students who have good attendance generally achieve higher grades, enjoy school more and are more employable after leaving school. For at least these reasons, the Board believes that a student must satisfy two basic requirements in order to earn full class credit: (1) satisfy all academic requirements and (2) exhibit good attendance habits as stated in this policy.

Excused absences

The following shall be considered excused absences:

1. A student who is temporarily ill or injured or whose absence is approved by the administrator of the school of attendance on a prearranged basis. Prearranged absences shall be approved for appointments or circumstances of a serious nature only which cannot be taken care of outside of school hours.
2. A student who is absent for an extended period due to physical, mental or emotional disability.
3. A student who is pursuing a work-study program under the supervision of the school.
4. A student who is attending any school-sponsored activity or activities of an educational nature with advance approval by the administration.
5. A student who is suspended or expelled.

As applicable, the district may require suitable proof regarding the above exceptions, including written statements from medical sources.

If a student is in out-of-home placement (as that term is defined by C.R.S. 22-32-138(1)(e)), absences due to court appearances and participation in court-ordered activities shall be excused. The student's counselor, community advocate or designated school representative shall verify the student's absence was for a court appearance or court-ordered activity.

Unexcused absences

An unexcused absence is defined as an absence that is not covered by one of the foregoing exceptions. Each unexcused absence shall be entered on the student's record. The parents/guardians of the student receiving an unexcused absence shall be notified orally or in writing by the district of the unexcused absence.

In accordance with law, the district may impose appropriate penalties that relate directly to classes missed while unexcused. Penalties may include a warning, school detention or in-school suspension. Academic penalties, out-of-school suspensions or expulsion shall not be imposed for any unexcused absence.

The administration shall develop regulations to implement appropriate penalties. The school administration shall consider the correlation between course failure, truancy and a student dropping out of school in developing these regulations and shall implement research-based strategies to re-engage students with a high number of unexcused absences.

Students and parents/guardians may petition the Board of Education for exceptions to this policy or the accompanying regulations provided that no exception shall be sustained if the student fails to abide by all requirements imposed by the Board as conditions for granting any such exception.

The maximum number of unexcused absences a student may incur before judicial proceedings may be initiated to enforce compulsory attendance is 4 days in one month and/or 10 days during the school year.

Make-up work

Make-up work shall be provided for any class in which a student has an excused absence unless otherwise determined by the building administrator or unless the absence is due to the student’s expulsion from school. It is the responsibility of the student to pick up any make-up assignments permitted on the day returning to class. There shall be one day allowed for make-up work for each day of absence.

Make-up work shall be allowed following an unexcused absence or following a student’s suspension from school with the goal of providing the student an opportunity to keep up with the class and an incentive to attend school. This work may receive full or partial credit to the extent possible as determined by the building administrator.

Unless otherwise permitted by the building administrator, make-up work shall not be provided during a student’s expulsion. Rather, the district shall offer alternative education services to the expelled student in accordance with state law. The district shall determine the amount of credit the expelled student will receive for work completed during any alternative education program.

Tardiness

Tardiness is defined as the appearance of a student without proper excuse after the scheduled time that a class begins. Because of the disruptive nature of tardiness and the detrimental effect upon the rights of the non-tardy student to uninterrupted learning, appropriate penalties may be imposed for excessive tardiness. Parents/guardians shall be notified of all penalties regarding tardiness.

In an unavoidable situation, a student detained by another teacher or administrator shall not be considered tardy provided that the teacher or administrator gives the student a pass to enter the next class. Teachers shall honor passes presented in accordance with this policy. The provisions of this policy shall be applicable to all students in the district, including those above and below the age for compulsory attendance as required by law.

Student Absences and Excuses

File: JH-R

In accordance with Policy JH, schools shall monitor student absences as follows:

The student’s parent/guardian shall notify the school of a student’s absence before 11:30 a.m. on the day of the absence via telephone, written notification or other verifiable documentation as required by the school administration. If the parent/guardian is unable to provide an excuse before 11:30 a.m. on the day of the student’s absence, the school may accept a written excuse from the parent/guardian, including a written statement from a medical source if necessary, for a period of three days following the absence.

1. Appointments/serious circumstances: A student who has an appointment or serious circumstance that cannot be resolved outside of school hours shall be excused if the student's parent/guardian obtains prior approval, when reasonably possible, from the school principal or designee. Such absences shall be considered on a case-by-case basis.
2. School sponsored activities: Up to five school days may be approved for students to participate in school-sponsored educational activities. Exceptions may be made by the district's Office of Student Support. Approval for school-sponsored educational activities shall be determined by the school principal or designee on a case-by-case basis in accordance with but not limited to the following criteria:
 - a. The student must be passing all classes with a grade of C – or better
 - b. The student must not have any unexcused absences or tardies,
 - c. The student must not have more than five excused absences in a semester and/or no more than nine excused absences for the school year.
3. Family business: A student's parent/guardian may request that the student be excused for family business (i.e. funerals, weddings, etc.). Such absences shall not exceed three days per school year. The principal or designee may make exceptions.

If the parent/guardian has not notified the school of a student's absence before 11:30 a.m., school personnel shall make reasonable efforts to notify the parent/guardian of the student's absence by a personal telephone call to the parent/guardian at work or at home. Recorded messages may be used if the parent/guardian cannot be reached in person.

When a student has two unexcused absences, the school principal or designee shall contact the parent/guardian to discuss the student's absences and to make an effort to resolve the situation. If the parent/guardian cannot be reached, a letter shall be sent.

When a student has three unexcused absences, the school shall contact the parent/guardian to discuss the district's attendance intervention options and, if necessary, possible court involvement. If the parent/guardian is contacted by telephone, a follow-up letter shall be sent reiterating the details of the telephone call.

When a student has four unexcused absences in any one calendar month or ten unexcused absences during the school year, the school shall immediately contact the district's Truancy and Family Support Specialist from the Office of Student Support. The school shall provide an attendance report and other appropriate supporting documentation to the Office of Student Support. The Truancy and Family Support Specialist shall then determine whether a truancy petition should be filed. A representative from the Office of Student Support may meet with the student and his or her parent/guardian to evaluate the reasons for the student's absences. At the meeting, a plan shall be developed to ensure the student remains in school.

When school officials become concerned about a student's absences, whether excused or unexcused, the school principal or designee may issue a referral and order a home visit by a school representative or community advocate. The school representative shall visit the student's family within 48 hours of receiving the referral, if reasonably possible, but no later than one week after receiving the referral. The school representative or community advocate shall record the outcome of the home visit and share the information with the school principal or designee. After a student has received a referral, the school shall continue to monitor the student's attendance and communicate regularly with the parent/guardian and the student regarding attendance.

Truancy

File: JHB

If a student is absent without an excuse signed by the parent/guardian or if the student leaves school or a class without permission of the teacher or administrator in charge, the student shall be considered truant. An "habitual truant" shall be defined as a student of compulsory attendance age who has four total days of unexcused absences from school in any one month or 10 total days of unexcused absences during any school year. Absences

due to suspension or expulsion shall not be counted in the total of unexcused absences for purposes of defining a student as an “habitual truant.”

In order to reduce the incidents of truancy, parents/guardians of all students shall be notified in writing at the beginning of each school year of their obligation to ensure that all children of compulsory attendance age attend school. Parents/guardians shall be required to acknowledge in writing awareness of their obligations and to furnish the school with a telephone number or other means of contacting them during the school day.

The school shall establish a system of monitoring individual unexcused absences. When a student fails to report on a regularly scheduled school day and school personnel have received no indication that the parent/guardian is aware of the absence, school personnel or volunteers under the direction of school personnel shall make a reasonable effort to notify the parent/guardian by telephone.

A plan shall be developed for a student who is at risk of being declared habitually truant with the goal of assisting the child to remain in school. The plan shall also include strategies to address the reasons for the truancy. When practicable, the student’s parent, guardian or legal custodian shall participate with district personnel during the development of the plan. Appropriate school personnel shall make reasonable efforts to meet with the parent, guardian or legal custodian to review and evaluate the reasons for the student’s truancy.

In accordance with law, the district may impose appropriate penalties that relate directly to classes missed while truant. Penalties may include a warning, school detention or in-school suspension. Academic penalties, out-of-school suspensions or expulsion shall not be imposed for any truancy.

The administration shall develop regulations to implement appropriate penalties for truancy. The school administration shall consider the correlation between course failure, truancy and a student dropping out of school in developing these regulations and shall implement research-based strategies to reengage students with a high number of truanancies.

Student Conduct

File: JIC

It is the intention of the Board that the district’s schools help students achieve maximum development of individual knowledge, skills and competence and that they learn behavior patterns which will enable them to be responsible, contributing members of society.

The Board in accordance with state law shall adopt a written student conduct and discipline code based upon the principle that every student is expected to follow accepted rules of conduct. The code shall emphasize that certain behavior, especially behavior that disrupts the classroom, is unacceptable and may result in disciplinary action.

All Board-adopted policies and Board-approved regulations containing the letters “JIC” in the file name shall be considered as constituting the conduct section of the legally-required code.

The Board shall consult with parents/guardians, students, teachers, administrators and other community members in the development of the conduct and discipline code.

The rules shall not infringe upon constitutionally protected rights, shall be clearly and specifically described, and shall be printed in a handbook or some other publication made available to students and parents/guardians.

The superintendent shall arrange to have the conduct and discipline code distributed once to each student in

elementary, middle, junior high and high school and once to each new student in the district. The superintendent shall ensure reasonable measures are taken to ensure each student is familiar with the code. Copies shall be posted or kept on file in each school of the district. In addition, any significant change in the code shall be distributed to students and parents and posted in each school.

In all instances, students shall be expected to conduct themselves in keeping with their level of maturity, acting with due regard for the supervisory authority vested by the Board in all district employees, the educational purpose underlying all district activities, the widely shared use of district property, and the rights and welfare of other students. All employees of the district shall be expected to share the responsibility for supervising the behavior of students and for seeing that they abide by the established rules of conduct.

Exceptions

Appropriate athletic clothing may be worn in physical education classes. Clothing normally worn when participating in school-sponsored extracurricular or sports activities (such as cheerleading uniforms and the like) may be worn to school when approved by the sponsor or coach.

Hair restraints, gloves, goggles, or other protective attire necessary for safe participation in vocational programs are permissible as approved by staff.

Dress guidelines for special events or school-sponsored purposes, including but not limited to dances, extracurricular activities, and fundraisers shall be at the discretion of school administration based upon the nature of the particular event. Students may avoid the risk of being asked to leave or change clothing at an event by having attire approved in advance by an administrator.

School uniforms may be required as designated by individual schools or the superintendent.

Building principals, in conjunction with the school accountability committee, may develop and adopt school-specific dress codes that are consistent with this policy.

Student Conduct in School Vehicles

The privilege of riding in a school vehicle is contingent upon a student's good behavior and observance of the student code of conduct and established regulations for student conduct both at designated school vehicle stops and on-board school vehicles.

The operator of a school vehicle shall be responsible for the safety of the students in the vehicle, both during the ride and while students are entering or leaving the vehicle. Students shall be required to conform to all regulations concerning discipline, safety and behavior while riding in the school vehicle. It is the vehicle operator's duty to notify the supervisor of transportation and the principal of the school involved if any student persists in violating the established rules of conduct.

After due warning has been given to the student and to the student's parents/guardians, the principal may withhold from the student the privilege of riding in the school vehicle. Violation of district policies and regulations while in a school vehicle may also result in the student's suspension or expulsion from school, in accordance with district policy.

Violent and Aggressive Behavior

File: JICDD*

The Board recognizes there are certain behaviors that, if tolerated, would quickly destroy the type of learning environment to which the students and staff of the district are entitled. These behaviors, categorized as violent or aggressive, will not be tolerated and shall result in immediate action being taken by the district.

Students exhibiting violent or aggressive behavior or warning signs of future violent or aggressive behavior shall be subject to appropriate disciplinary action including suspension, expulsion and/or referral to law enforcement authorities. At the district's discretion and when appropriate, the student shall receive appropriate intervention designed to address the problem behavior. The Board of Education shall be informed of all intervention efforts by district schools.

Students shall be taught to recognize the warning signs of violent and aggressive behavior and shall report questionable behavior or potentially violent situations to appropriate school officials. All reports shall be taken seriously.

Acts of violence and aggression shall be documented and communicated by the staff to the building principal and the superintendent. The immediate involvement of the parents/guardians is also essential. Law enforcement officials shall be involved if there is any violation of law.

An act of violence and aggression is any expression, direct or indirect, verbal or behavioral, of intent to inflict harm, injury or damage to persons or property. A threat of violence and aggression carries with it implied notions of risk of violence and a probability of harm or injury.

The following behaviors are defined as violent and aggressive:

1. Possession, threat with or use of a weapon — as described in the district's weapons policy.
2. Physical assault — the act of striking or touching a person or that person's property with a part of the body or with any object with the intent of causing hurt or harm.
3. Verbal abuse — includes, but is not limited to, swearing, screaming, obscene gestures or threats directed, either orally (including by telephone) or in writing, at an individual, his or her family or a group.
4. Intimidation — an act intended to frighten or coerce someone into submission or obedience.
5. Extortion — the use of verbal or physical coercion in order to obtain financial or material gain from others.
6. Bullying — as described in the district's policy on bullying prevention and education.
7. Gang activity — as described in the district's secret societies/gang activity policy.
8. Sexual harassment — as described in the district's sexual harassment policy.
9. Stalking — the persistent following, contacting, watching or any other such threatening actions that compromise the peace of mind or the personal safety of an individual.
10. Defiance — a serious act or instance of defying or opposing legitimate authority.
11. Discriminatory slurs — insulting, disparaging or derogatory comments made directly or by innuendo regarding a person's race, color, ancestry, creed, sex, sexual orientation, religion, national origin, disability or need for special education services.
12. Vandalism — damaging or defacing property owned by or in the rightful possession of another.
13. Terrorism — a threat to commit violence communicated with the intent to terrorize or with reckless disregard for the risk of creating such terror or to cause serious public inconvenience, such as the evacuation of a building.

Bullying Prevention and Education

File: JICDE*

The Board of Education supports a secure school climate, conducive to teaching and learning that is free from threat, harassment and any type of bullying behavior. The purpose of this policy is to promote consistency of approach and to help create a climate in which all types of bullying are regarded as unacceptable.

Bullying is the use of coercion or intimidation to obtain control over another person or to cause physical, mental or emotional harm to another person. Bullying can occur through written, verbal or electronically transmitted expression or by means of a physical act or gesture. Bullying is prohibited against any student for any reason,

including but not limited to any such behavior that is directed toward a student on the basis of his or her academic performance or any basis protected by federal and state law, including disability, race, creed, color, sex, sexual orientation, national origin, religion, ancestry or the need for special education services, whether such characteristic(s) is actual or perceived.

Bullying is prohibited on district property, at district or school-sanctioned activities and events, when students are being transported in any vehicle dispatched by the district or one of its schools, or off school property when such conduct has a nexus to school or any district curricular or non-curricular activity or event.

A student who engages in any act of bullying and/or a student who takes any retaliatory action against a student who reports in good faith an incident of bullying, is subject to appropriate disciplinary action including but not limited to suspension, expulsion and/or referral to law enforcement authorities. The severity and pattern, if any, of the bullying behavior shall be taken into consideration when disciplinary decisions are made. Bullying behavior that constitutes unlawful discrimination or harassment shall be subject to investigation and discipline under related Board policies and procedures. Students targeted by bullying when such bullying behavior may constitute unlawful discrimination or harassment also have additional rights and protections under Board policies and procedures regarding unlawful discrimination and harassment.

The superintendent shall develop a comprehensive program to address bullying at all school levels. The program shall be aimed toward accomplishing the following goals:

1. To send a clear message to students, staff, parents and community members that bullying and retaliation against a student who reports bullying will not be tolerated.
2. To train staff and students in taking pro-active steps to prevent bullying from occurring.
3. To implement procedures for immediate intervention, investigation, and confrontation of students engaged in bullying behavior.
4. To initiate efforts to change the behavior of students engaged in bullying behaviors through re-education on acceptable behavior, discussions, counseling, and appropriate negative consequences.
5. To foster a productive partnership with parents and community members in order to help maintain a bully-free environment.
6. To support victims of bullying by means of individual and peer counseling.
7. To help develop peer support networks, social skills and confidence for all students.
8. To recognize and praise positive, supportive behaviors of students toward one another on a regular basis.

School-Related Student Publications

File: JICEA

School-sponsored publications are a public forum for students as well as an educational activity through which students can gain experience in reporting, writing, editing and understanding responsible journalism. Because the Board recognizes creative student expression as an educational benefit of the school experience, it encourages freedom of comment, both oral and written, in a school setting with a degree of order in which proper learning can take place.

The Board encourages students to express their views in school-sponsored publications and to observe rules for responsible journalism. This means expression which is false or obscene, libelous, slanderous or defamatory under state law; presents a clear and present danger of the commission of unlawful acts, violation of school rules or material and substantial disruption of the orderly operation of the school; violates the privacy rights of others; or threatens violence to property or persons shall not be permitted.

Student editors of school-sponsored publications shall be responsible for determining the news, opinion and advertising content of their publications subject to the limitations of this policy and state law. The publications advisor within each school shall be responsible for supervising the production of school-sponsored publications and for teaching and encouraging free and responsible expression and professional standards of journalism.

The publications advisor has authority to establish or limit writing assignments for students working with publications and to otherwise direct and control the learning experience that publications are intended to provide when participation in a school-sponsored publication is part of a school class or activity for which grades or school credits are given.

All school-sponsored publications shall contain a disclaimer that expression made by students in the exercise of freedom of speech or freedom of the press is not an expression of Board policy. The school district and employees are provided immunity from civil or criminal penalties for any expression made or published by students.

The superintendent shall develop, for approval by the Board, a written official school publications code which shall include:

1. A statement of the purposes of official school publications.
2. Responsibilities of official school publications' advisors and student editors.
3. A list of prohibited materials.
4. Reasonable provisions for the time, place and manner of distributing school-sponsored student publications within the school district's jurisdiction.
5. Procedures for resolving differences.

The publications code shall be distributed to all students and teachers at the beginning of each school year.

Student Distribution of Noncurricular Materials

File: JICEC*

To understand Constitutional values such as the right to free speech, students must not only study such principles but also have an opportunity to put them into practice. However, there are limitations on the right of student free speech in the school setting that have been upheld by the courts because of the unique nature of the school community.

It is the goal of this policy to strike a necessary balance between a student's right of free speech and the school's need to maintain an orderly and safe school environment which respects the rights of all students on school grounds and during school-sponsored activities.

Students shall be allowed to distribute noncurricular written materials on school property subject to restrictions on time, place and manner of distribution set out in the accompanying regulations and the prohibitions set out below and in state law.

Any material in any media containing expression which is obscene, pornographic, sexually explicit, libelous, slanderous or defamatory shall be prohibited. Students shall not distribute any material which advocates commission of unlawful acts or violation of Board or district policy and/or regulations, violates another person's right to privacy, causes a material and substantial disruption of the orderly operation of the school or threatens violence to property or persons. Also prohibited are materials that contain insulting words or words the very expression of which injures or harasses other people and which are inconsistent with the shared values of a civilized social order (e.g. threats of violence or defamation of a person's race, religion, ethnicity, national origin, etc.).

Students who distribute materials in violation of this policy may be subject to appropriate disciplinary action, including suspension and/or expulsion.

School equipment and supplies shall not be used for publication of such material.

The Board of Education desires to keep district schools and students free from the threats or harmful influence of any groups or gangs which advocate drug use, violence or disruptive behavior. The principal or designee shall maintain continual, visible supervision of school premises, school vehicles and school-related activities to deter gang intimidation of students and confrontations between members of different gangs.

The superintendent or designee shall establish open lines of communication with local law enforcement authorities so as to share information and provide mutual support in this effort.

The superintendent or designee shall provide inservice training to help staff members identify gangs and gang symbols, recognize early manifestations of disruptive activities and respond appropriately to gang behavior. Staff members shall be informed about conflict management techniques and alerted to intervention measures and community resources which may help students.

The Board prohibits the presence on school premises, in school vehicles and at school-related activities of any apparel, jewelry, accessory, notebook or manner of grooming which by virtue of its color, arrangement, trademark or any other attribute denotes membership in gangs which advocate drug use, violence or disruptive behavior. Student Drug, Alcohol and Controlled Substance Offenses File: JICH-R

In accordance with the accompanying policy, the following procedures are established for addressing alcohol- or drug-related misconduct. These procedures supplement and complement authority conferred elsewhere by Board policy and shall not be deemed to limit or suspend such authority. Students shall be disciplined as appropriate in accordance with this regulation and Board policy JKD/JKE. However, when a student is recognized to be under the influence of a controlled substance and school officials believe the student’s judgment is impaired, due process procedures may be delayed until immediate health and safety needs are first addressed.

While this regulation identifies sanctions and interventions for violations, parents who have questions or concerns about student drug or alcohol issues are encouraged to contact their school counselor or mental health provider,

school administration, or the district's Office of Student Support to discuss resources that may be available to assist them. Schools will provide opportunities for students to increase awareness regarding the consequences of controlled substance use and abuse.

In order to promote a healthy school environment and the general health, welfare and well-being of students, use or possession of tobacco or other nicotine delivery devices by students while in or on school property or at school-sponsored activities is prohibited. Any student in possession of tobacco or other nicotine delivery devices is subject to disciplinary action including suspension from school

Sanctions and interventions

1. Students are subject to disciplinary action up to and including suspension and expulsion for any single violation of the accompanying policy.
2. Offenses and consequences shall be cumulative for a period of four calendar years.
3. Recommended expulsion. The sale of a controlled substance shall result in suspension for 5 days out of school and may be recommended for expulsion.
4. Recommended expulsion. The solicitation, distribution or transfer of a controlled substance, regardless of the exchange of an item of value, shall result in a suspension of 5 days out of school, and recommended expulsion. Alternative to expulsion options may be considered at the discretion of school and district officials.
5. Recommended expulsion. Controlled substance offenses resulting in arrests or felony charges, or those during which the violating student endangered the immediate safety of others, including driving other students while under the influence of a controlled substance, shall result in a suspension of 5 days out of school and recommended expulsion.
6. Discretionary consequence offenses. Controlled substance offenses other than those involving the sale, transfer, distribution or solicitation shall result in the following sanctions and intervention opportunities. However, in some situations other co-occurring offenses and/or a student's past discipline history may impact eligibility for alternative to suspension or alternative to expulsion programming opportunities.
 - a. 1st offense – Student shall be suspended for 5 days out of school. An alternative to suspension opportunity may be offered by which the student may return after 3 days of suspension, upon agreement to complete an intervention program. Should the student fail to participate in or successfully complete the intervention program, the remainder of the suspension must be served in full.
 - b. 2nd offense – Student shall be suspended for 5 days out of school. An alternative to expulsion opportunity may be offered upon request by school administration and approval by district officials by which the student may return after a minimum of 3 days of suspension, upon agreement to complete an intervention program. Should the student fail to participate in or successfully complete the intervention program, the remainder of the suspension must be served in full.
 - c. 3rd offense – Student shall be suspended for 5 days out of school and expulsion may be recommended.

Suspicion of use or influence

1. Self admission by the student suspected of being under the influence of a controlled substance constitutes sufficient evidence to proceed with disciplinary action.
2. If a student is determined to be under the influence of a controlled substance, discipline sanctions shall proceed as described in this regulation.

Transfer of records

Records of violations of the accompanying policy, noting the date, type of offense, and resulting disciplinary action, shall be maintained electronically in district records. Tracking of such records is not meant to be punitive, but is intended to prevent overlap or misuse of intervention services.

Weapons in School

File: JICI

The Board of Education determines that possession and/or use of a weapon by students is detrimental to the welfare and safety of the students and school personnel.

Dangerous weapons

Using, possessing or threatening to use a dangerous weapon without the authorization of the school or district is prohibited on district property, on district vehicles, at any school-sponsored or district-sponsored activity or event, and off district property when the conduct has a reasonable connection to school or any district curricular or non-curricular event. An exception to this policy may be made for students participating in an authorized extracurricular activity or team involving the use of firearms.

As used in this policy, “dangerous weapon” means:

- a. A firearm, whether loaded or unloaded.
- b. Any pellet, BB gun or other device, whether operational or not, designed to propel projectiles by spring action or compressed air.
- c. A fixed blade knife with a blade that measures longer than three inches in length or a spring loaded knife or pocket knife with a blade that measures longer than three and one-half inches in length.
- d. Any object, device, instrument, material, or substance, whether animate or inanimate, used or intended to be used to inflict death or serious bodily injury including but not limited to a slingshot, bludgeon, brass knuckles or artificial knuckles of any kind, nunchucks, mace, pepper spray, stun gun or taser.

Student possession, use and/or threatened use of a dangerous weapon in violation of this policy shall be grounds for suspension and/or expulsion. In accordance with federal law, expulsion shall be mandatory for no less than one full calendar year for a student who is determined to have brought a firearm to or possessed a firearm at school. The superintendent may modify the length of this federal requirement for expulsion on a case-by-case basis. Such modification shall be in writing.

Firearm facsimiles

Carrying, using, actively displaying or threatening with the use of a firearm facsimile that could reasonably be mistaken for an actual firearm without the authorization of the school or district is prohibited on district property, on district vehicles, at any school-sponsored or district-sponsored activity or event, and off district property when the conduct has a reasonable connection to school or any district curricular or non-curricular event. Students who violate this policy provision may be subject to disciplinary action including but not limited to suspension and/or expulsion.

A student may seek prior authorization from the building principal to carry, bring, use or possess a firearm facsimile that could reasonably be mistaken for an actual firearm on district property for purposes of a school-related or non-school related activity. A student’s failure to obtain such prior authorization is a violation of this policy provision and may result in disciplinary action, including but not limited to suspension and/or expulsion. The principal’s decision to deny or permit a student to carry, bring, use or possess a firearm facsimile that could reasonably be mistaken for an actual firearm on district property shall be final.

School administrators shall consider violations of this policy provision on a case-by-case basis to determine whether suspension, expulsion or any other disciplinary action is appropriate based upon the individual facts and circumstances involved.

Local restrictions

The Board of Education determines that extra precautions are important and necessary to provide for student safety. Therefore, using, possessing or threatening to use any knife, regardless of the length of the blade, without the authorization of the school or district, is prohibited on district property, on district vehicles, at any school-sponsored or district-sponsored activity or event, and off district property when the conduct has a reasonable connection to school or any district curricular or non-curricular event. Students who violate this policy provision shall be referred for appropriate disciplinary proceedings, including suspension and/or expulsion.

Recordkeeping

The district shall maintain records which describe the circumstances involving expulsions of students who bring weapons to school including the name of the school, the number of students expelled and the types of weapons involved as required by law.

Referral to law enforcement

In accordance with applicable law, school personnel shall refer any student who brings a firearm or weapon to school without authorization of the school or district to law enforcement.

Student Use of Electronic Communication Devices

File: JICJ

The Board of Education recognizes that electronic communication devices can play a vital communication role during emergency situations. However, ordinary use of electronic communication devices in school situations disrupts and interferes with the educational process and is not acceptable. For purposes of this policy, "electronic

communication devices” include cell phones, beepers, pagers, walkie-talkies, and any other telecommunications device that emits an audible signal, vibrates, displays a message, or otherwise summons or delivers a communication to the possessor.

Students may carry electronic communication devices but these devices must be turned off inside school buildings, on school buses, at school-sponsored activities and on field trips. In these locations, electronic communication devices may be used only during emergencies. For purposes of this policy, “emergency” shall mean an actual or imminent threat to public health or safety, which may result in loss of life, injury or property damage.

Electronic communication devices with cameras are prohibited in locker rooms, bathrooms, or other locations where such operation may violate the privacy rights of another person.

It is the student’s responsibility to ensure that the device is turned off and out of sight during unauthorized times. Violation of this policy and/or use that violates any other district policy shall result in disciplinary measures and confiscation of the electronic communication device. Confiscated devices shall be returned to the student only after a conference with the parent/guardian, student and school personnel. The building principal or designee may also refer the matter to law enforcement, as appropriate.

The district shall not be responsible for loss, theft or destruction of electronic communication devices brought onto school property.

Interviews and Searches

File: JIH

The Board of Education seeks to maintain a climate in the schools which is conducive to learning and protective of the safety and welfare of staff and students. To achieve this goal, school personnel may search a student, student lockers, desks, storage areas, student motor vehicles or student personal property and may seize any illegal, unauthorized or contraband materials discovered in the search. School personnel also may interview students without the prior consent of the student’s parent or guardian in accordance with the provisions of this policy and state law.

Interviews by school administration

When a violation of Board policy or school rules occurs, the principal or designee may question potential student victims and witnesses without prior consent of the student’s parent/guardian. If a school official is investigating a report of child abuse and the suspected perpetrator is a member of the student’s family, no contact with the student’s family will be made.

In situations where a student is suspected of violating Board policies or school rules, the principal or designee may interview the suspected student if the principal or designee has reasonable grounds to suspect that such a violation has occurred. The nature and extent of the questioning will be reasonably related to the objectives of the questioning. If the student denies any involvement or culpability, the student will have the opportunity to present his or her side of the story, orally or in writing.

Searches conducted by school personnel

School personnel may search a student and/or the student’s personal property while on school premises or during a school activity in accordance with this policy and may seize any illegal, unauthorized or contraband materials.

If school personnel elect to search a student or a student’s personal effects, then, whenever reasonably possible, the student will be informed of the reason(s) for conducting the search and the student’s permission to perform the search will be requested. A student’s failure to cooperate with school officials conducting a search may be considered grounds for disciplinary action.

An administrative report shall be prepared by the school official conducting a search explaining the reasons for the search, the results and the names of any witnesses to the search.

Searches of school property

School lockers, desks and other storage areas are school property and remain at all times under the control of

the school. All such lockers, desks and other storage areas, as well as their contents, are subject to inspection at any time, with or without notice or consent.

Students shall assume full responsibility for the security of their lockers and/or other storage areas in the manner approved by the administration. Students shall be responsible for whatever is contained in desks and lockers assigned to them by the school, as well as for any loss or damage relating to the contents of such desks and lockers.

Searches of a student's person or personal effects

The principal or designee may search the person of a student or a student's personal effects such as a purse, backpack, book bag, or briefcase on school property or at school-sponsored events or activities if the school official has reasonable grounds to suspect that the search will uncover:

- a. Evidence of a violation of Board and/or district policies, school rules, or federal, state, or local laws.
- b. Anything which, because of its presence, presents an immediate danger of physical harm or illness to any person.

Search of a student shall be limited to the student's pockets, any object in the student's possession such as a purse, backpack, book bag or briefcase, and a "pat down" of the exterior of the student's clothing.

The extent of the search of a student's person or personal effects, as well as the means to conduct the search, must be reasonably related to the objectives of the search and the nature of the suspected violation. Additionally, school officials conducting the search shall be respectful of privacy considerations, in light of the sex and age of the student.

Searches of the person shall be conducted out of the presence of other students and as privately as possible by a person of the same sex as the student being searched. At least one person of the same sex as the student being searched shall witness but not participate in the search.

Searches of a student's person and/or personal effects may be conducted without the prior consent of the student's parent/guardian. However, the parent/guardian of any student searched shall be notified of the search as soon as reasonably possible.

Searches of the person which may require removal of clothing other than a coat or jacket shall be referred to a law enforcement officer. School personnel shall not participate in such searches.

Searches of motor vehicles

Motor vehicle are subject to searches in accordance with Board policy JIHB.

Seizure of items

Anything found in the course of a search conducted by school officials which is evidence of a violation of law or Board policy or school rules or which by its presence presents an immediate danger of physical harm may be:

1. Seized and offered as evidence in any suspension or expulsion proceeding. Such material shall be kept in a secure place by the principal until it is presented at the hearing.
2. Returned to the student or the parent/guardian.
3. Turned over to a law enforcement officer.

Law enforcement officers' involvement

Interviews

When law enforcement officials request permission to question students when students are in school or participating in school activities, the principal or designee shall ascertain that the law enforcement officer has proper identification. Except when law enforcement officers have a warrant or other court order, or when an emergency or other exigent circumstances exist, such interviews are discouraged during students' class time.

Upon request by law enforcement to question a student victim, witness, or suspect, school officials shall make an effort to notify the student's parent/guardian, except in cases involving investigation of reported child abuse where the suspected perpetrator is a member of the student's family, when law enforcement has a court order directing that the student's parent/guardian not be notified, or when an emergency or other exigent circumstances exist. It is the responsibility of the law enforcement officer interviewing the student victim, witness, or suspect to assure compliance with all applicable procedural safeguards. School personnel are not responsible for law enforcement compliance with the law. If a parent has not given consent or has refused consent for law enforcement questioning, it is the law enforcement officer's responsibility to proceed appropriately.

Search and seizure

The principal or designee may request that a search on school premises be conducted by a law enforcement officer. When law enforcement officers respond to such a request, no school employee shall assist or otherwise participate in the search. It is expected that searches by law enforcement will be conducted in accordance with the requirements of applicable law.

Custody and/or arrest

Students will be released to law enforcement officers if the student has been placed under arrest or if the student's parent/guardian and the student consent to such release. When a student is removed from school by law enforcement officers for any reason, school officials will make reasonable efforts to notify the student's parent/guardian. It is the responsibility of law enforcement officers to conduct arrests in accordance with all applicable procedural safeguards. School personnel are not responsible for law enforcement compliance with the law.

School resource officers

Although the district contracts with the City of Pueblo for the provision of School Resource Officers (SROs) to assist in maintaining school safety, SROs are employees of the City of Pueblo who are subject to the direct supervision and control of the City of Pueblo Police Department.

Student Organizations

File: JJA-1

Schools in the district may encourage students to broaden their knowledge and citizenship by permitting the formation of clubs or other groups that relate to subject matter covered by the curriculum. Such organizations shall operate within the framework of state statutes, Board policy, administrative rules and the parameters of the learning program.

Each building principal shall develop general guidelines for the establishment and operation of student organizations within the particular school. Among other provisions, such guidelines shall require the approval of the principal prior to the formation of any club or organization in a school and the assignment of at least one faculty adviser to each approved student organization.

All student organizations are required to open membership to all interested and/or eligible students. Fraternities, sororities and/or secret societies shall not receive recognition in any manner under this policy.

All forms of hazing in initiations shall be prohibited in a student organization. No initiation shall be held for a student organization which will bring criticism to the school system or be degrading to the student.

The faculty adviser must attend every meeting of the student organization whether conducted on school premises or at another location.

The principal is responsible for determining whether the purpose of a student organization is related to the curriculum.

Student organizations shall be considered directly related to the curriculum if one or more of the following applies:

1. The subject matter of the group actually is taught in a regularly-offered course.
2. The subject matter of the group concerns the body of courses as a whole.
3. Participation in the group is required for a particular course.
4. Academic credit or extra credit is given for participation in the group.

When the principal denies the request of a student organization desiring to meet or form in a particular school,

the principal shall inform the group of the reasons for the denial. The students and/or group may submit a written request to the superintendent within 10 days of the denial for a review of the principal's decision.

In the event that the principal denies a group of secondary students the right to organize and conduct meetings as a curriculum-related student organization, then students may seek permission to meet as a non-curricular student organization in accordance with Board policy JJA-2.

Student Organizations - Open Forum (Secondary Schools)

File: JJA-2

In addition to clubs and groups related to the curriculum, students in secondary schools (grades 7-12) in this district shall be permitted to organize and conduct meetings of noncurriculum-related student clubs or other groups to pursue specialized activities outside the classroom. Such groups shall not be considered school-sponsored student organizations nor be given all the privileges afforded to school-sponsored organizations.

Students may conduct meetings under this policy on school premises only during noninstructional time so that meetings do not interfere with the orderly conduct of the educational activities of the school. Meetings of noncurricular student groups must be scheduled, organized and conducted within the guidelines established by this policy and accompanying regulations.

For purposes of this policy, "noninstructional time" means time set aside by each school before actual classroom instruction begins or after actual classroom instruction ends.

Requests for permission to conduct a noncurricular student meeting must originate from a student or groups of students. Persons not attending school in this district, parents, school personnel or any other non-school persons are prohibited from directing, conducting, controlling or regularly attending the activities of a noncurricular student group.

All noncurricular student groups meeting on school premises are required to open membership to all interested and/or eligible students. Fraternities, sororities and/or secret societies shall not receive recognition in any manner under this policy. Attendance at all meetings must be voluntary.

The administration shall develop general guidelines and rules so that students will be informed about the procedure for scheduling meetings and activities, the hours available for meetings and the facilities available for meeting space. Students must request permission for a meeting of a noncurriculum-related group from the principal and submit all scheduling requests to the principal for approval.

A member of the professional staff must be invited to attend every meeting or activity scheduled on school premises as a monitor for purposes of general supervision.

Students shall be responsible for ensuring the presence of a faculty monitor prior to every meeting.

Under no circumstances shall the school compel a faculty member or school employee to monitor or attend a meeting of a noncurricular student group if the content of the speech at the meeting is contrary to the beliefs of the school employee.

School employees may be present at religious meetings of a noncurricular group only in a non-participatory capacity.

All forms of hazing in initiations shall be prohibited in any group meeting on school premises. No initiation shall be held for any noncurricular student group which will bring criticism to the school system or be degrading to the student.

The school district, through the building principal, retains the authority to prohibit meetings which otherwise would be unlawful. Further, nothing in this policy shall be construed to limit the authority of the school to maintain

discipline on school premises, to protect the well-being of students and faculty and to ensure that attendance at meetings is voluntary. Neither shall anything in this policy be used to imply that the school is sponsoring a noncurricular student group. No public funding or support shall be extended to noncurricular student groups other than an opportunity to meet on school premises.

In providing equal access to school facilities for all noncurricular groups, the district is not expressing any opinion or approval of the subject matter discussed at any meeting nor is it advocating or supporting in any manner the point of view expressed by any student or group meeting as allowed by this policy.

Noncurricular student groups shall not be denied equal access to school facilities solely on the basis of the religious, political, philosophical or other content of any speech at such meetings.

Student Discipline

File: JK

The Board affirms that quality education cannot proceed without good discipline, fairly and consistently applied. The Board believes that each student is unique and has the potential for making a positive contribution to society. The Board also recognizes that in order to function in society, individuals need to master certain basic skills and to continue learning throughout life. While learning the need for the value of group dynamics, individuals come to know and appreciate their worth and the worth of others. By accepting and fulfilling appropriate responsibilities, individuals come to value resultant privileges.

District schools serve many age groups whose levels of maturity differ. The Board believes that schools must create an orderly environment in which learning is not jeopardized by disruptions. Within these limitations, students must be given opportunities to bear responsibilities and to accept the reasonable exercise of authority. A necessary assumption is that students will accept these responsibilities. The most important student responsibility is to obey all Board and school policies and rules.

The Board desires each student to develop an awareness of and a sensitivity to creativity in all things, whether they be functional or aesthetic. Therefore, the Board commits itself to a cooperative effort with parents, community and school personnel to provide an atmosphere that will allow all students to:

1. Be accountable for their own actions and to realize that with privileges go responsibilities
2. Acquire the values and attitudes necessary for lawful and responsible citizenship
3. Display a positive attitude toward learning and the school environment
4. Know and obey the rules and decisions of those in authority
5. Demonstrate appreciation for the dignity and integrity of all
6. Respect persons belonging to various cultural, social and ethnic groups
7. Develop a sense of responsibility to groups in which they participate
8. Develop their talents to the fullest
9. Respect rights and educational opportunities of both students and teachers

The principals shall be authorized to establish written standards of conduct and administrative procedures dealing with less serious behavior. Teachers and administrators shall be expected to hold students strictly accountable for their failure to obey standards of conduct outlined in Board policy.

All Board-adopted policies and Board-approved regulations containing the letters “JK” in the file name constitute the discipline section of the legally required code.

Immunity for enforcement of discipline code

Administrators, teachers, parents and students shall be responsible for maintaining an atmosphere of acceptable and consistent discipline at all times while engaged in performing their duties and responsibilities. Students in all district schools shall be expected to follow the disciplinary policies and regulations established by the Board and school.

All employees of the district shall be required to administer and enforce Board and school discipline policies and regulations in a consistent manner at all times.

An act of a teacher or other employee shall not be considered child abuse if the act was performed in good faith and in compliance with Board policy and procedures.

A teacher or any other person acting in good faith and in compliance with the discipline code adopted by the Board shall be immune from criminal prosecution or civil liability unless the person is acting willfully or wantonly.

Remedial discipline plans

The principal may develop a remedial discipline plan for any student who is deemed habitually disruptive and/or causes a material and substantial disruption in the classroom, on school grounds, in school vehicles or at school activities or events. The goal of the remedial discipline plan shall be to address the student's disruptive behavior and educational needs while keeping the child in school and following the habitually disruptive process as outlined on page 18 of the Student Conduct and Discipline Code.

Discipline of habitually disruptive students

Students who have caused a material and substantial disruption in the classroom, on school grounds, in school vehicles or at school activities or events three times during the school year shall be declared habitually disruptive students. Any student enrolled in the district's schools may be subject to being declared a habitually disruptive student. Declaration as a habitually disruptive student may result in the student's expulsion.

Discipline of special education students

Appropriate discipline for special education students shall be determined by the student's Individualized Education Plan (IEP). The special education director shall be contacted prior to the use of any disciplinary measure which is not authorized by the student's IEP as additional procedural considerations are required in accordance with the district's responsibilities under state and federal law.

Distribution of conduct and discipline code

The superintendent shall arrange to have a copy of the conduct and discipline code provided once to each student in elementary, middle, junior high and high school and once to each new student in the district. The superintendent shall ensure reasonable measures are taken to ensure each student is familiar with the code. Copies shall be posted in each school of the district. In addition, any significant change in the code shall be distributed to each student and posted in each school.

The Board shall consult with administrators, teachers, parents, students and other members of the community in the development of the conduct and discipline code.

Remedial discipline plans

1. The principal may develop a remedial discipline plan for any student who causes a material and substantial disruption on school grounds, in a school vehicle or at a school activity or sanctioned event. The goal of the plan shall be to address the student's disruptive behavior and educational needs while keeping the child in school.
2. To develop the plan, the principal will arrange for a Response to Intervention (RtI) meeting with the student, the student's parent/guardian and any members of the staff whom the principal believes should attend.
3. The purpose of the RtI meeting will be to address the reasons for the student's disruptive behavior and to establish goals, objectives and timelines to modify such behavior. A written plan will be prepared which addresses the student's disruptive behavior, educational needs and what steps are necessary to keep the child in school. The plan will include incentives for good behavior and consequences if the student violates the plan.
4. The plan may be written in the form of a contract which the student and the parent/guardian will sign and date.
5. The parent/guardian will be provided a copy of the remedial discipline plan and it will be placed in the student's cumulative file.

Habitually disruptive students

A student will be declared "habitually disruptive" if three times during the course of the school year the student causes a material and substantial disruption on school grounds, in school vehicle or at a school activity or sanctioned event.

1. The principal will inform the superintendent when a student causes a second material and substantial disruption.
2. The student and the parent/guardian will be notified in writing of each disruption which counts toward declaring the student habitually disruptive. The student and parent/guardian will also be notified in writing and by telephone or other oral communication of the definition of "habitually disruptive student."
3. A student who has been declared habitually disruptive may be suspended and/or expelled in accordance with Board policy JKD/JKE.

Discipline of Students with Disabilities

File: JK*-2

Students with disabilities are neither immune from a school district's disciplinary process nor entitled to participate in programs when their behavior impairs the education of other students. Students with disabilities who engage in disruptive activities and/or actions dangerous to themselves or others will be disciplined in accordance with their Individualized Education Programs (IEPs), any behavioral intervention plan and this policy.

Nothing in this policy shall prohibit an IEP team from establishing consequences for disruptive or unacceptable behavior as a part of the student's IEP and/or behavioral intervention plan.

Suspensions, expulsions and provision of services

Students with disabilities may be suspended for up to 10 school days in any given school year for violations of the student code of conduct. These 10 days need not be consecutive. During any such suspension, the student shall not receive educational services.

A disciplinary change of placement occurs when a student is removed for more than 10 consecutive school days or subjected to a series of removals that constitute a pattern of removal under governing law.

Upon the eleventh school day of suspension or removal when such suspension or removal does not result in a disciplinary change of placement, educational services shall be provided to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. School personnel, in consultation with at least one of the student's teachers, shall determine the educational services to be provided to the student during this period of suspension or removal.

When a student is expelled or subject to a removal that results in a disciplinary change of placement, educational services shall be provided as determined by the student's IEP team to enable the student to participate in the general education curriculum, although in another setting, and to progress toward meeting his or her IEP goals.

Prior to expulsion or other disciplinary change in placement, the student's parents shall be notified of the decision to take such disciplinary action and of their procedural safeguards. This notification shall occur not later than the date on which such decision is made.

Manifestation determination

Within 10 school days from the date of the decision to take disciplinary action that will result in a disciplinary change of placement, relevant members of the student's IEP team, including the student's parents, shall review all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information provided by the parents, to determine whether the student's behavior was a manifestation of the student's disability.

The team shall determine: (1) whether the student's conduct in question was caused by, or had a direct and substantial relationship to, the student's disability; and (2) whether the student's conduct in question was the direct result of the school's failure to implement the student's IEP. If the answer to either of these two questions is "yes," the student's behavior shall be deemed to be a manifestation of the student's disability.

Disciplinary action for behavior that is not a manifestation

If the team determines that the student's behavior was not a manifestation of the student's disability, disciplinary procedures shall be applied to the student in the same manner as applied to nondisabled students. As stated above, the student shall receive educational services during the period of expulsion or other disciplinary change of placement.

Within a reasonable amount of time after determining that the student's behavior is not a manifestation of the student's disability, the student may receive, as appropriate, a functional behavioral assessment ("FBA"). In addition, a behavioral intervention plan ("BIP") may be developed for the student, as appropriate. If a BIP has already been developed, the BIP may be reviewed and modified, as appropriate.

Disciplinary action and/or alternative placement for behavior that is a manifestation

If the team determines that the student's behavior is a manifestation of the student's disability expulsion proceedings or other disciplinary change of placement will be discontinued. However, the student may be placed in an alternative setting for up to 45 school days as discussed below or the student's placement may be changed for educational reasons as determined by the IEP team or as otherwise permitted by law.

Within a reasonable amount of time after determining that the student's behavior is a manifestation of the student's disability, the student's IEP team shall: (1) conduct an FBA of the student, unless an FBA has already been conducted; and (2) implement a BIP for the student. If a BIP has already been developed, the IEP team shall review it and modify it as necessary to address the student's behavior.

Placement in an alternative setting for 45 school days

School personnel may remove a student with disabilities to an interim alternative setting for not more than 45 school days without regard to the manifestation determination if:

1. the student carried a weapon to school or a school function;
2. the student possessed a weapon at school or a school function;
3. the student possessed or used illegal drugs at school or a school function;
4. the student sold or solicited the sale of a controlled substance at school or a school function;
5. the student inflicted serious bodily injury on another person while at school or a school function; or
6. a hearing officer or court of appropriate jurisdiction so orders.

Such removal to an alternative setting is permissible even if the student's behavior is determined to be a manifestation of the student's disability. The student's IEP team shall determine the educational services to be provided to the student in the alternative setting.

Students not identified as disabled

Students who have not been identified as disabled shall be subjected to the same disciplinary measures applied to students with disabilities if the district had "knowledge" of the student's disability before the behavior that precipitated the disciplinary action occurred.

The district is deemed to have knowledge of the student's disability if:

1. the student's parent has expressed concern in writing to district supervisory or administrative personnel, or the student's teacher, that the student is in need of special education and related services;
2. the student's parent has requested an evaluation; or
3. the student's teacher or other district personnel have expressed specific concerns about the student's pattern of behavior directly to the director of special education or other district supervisory personnel.

If a request for evaluation is made during the period the student is subject to disciplinary measures, the evaluation will be expedited. Until the evaluation is completed, the student shall remain in the district's determined educational placement, which can include suspension or expulsion.

The district shall not be deemed to have knowledge that the student is a child with a disability if the parent has not allowed an evaluation of the student, or the student has been evaluated and it was determined that he or she is not a child with a disability, or the student was determined eligible for special education and related services, but the parent refused services.

Use of Physical Intervention and Restraint

File: JKA

To maintain a safe learning environment, district employees may, within the scope of their employment and consistent with applicable law, use physical intervention and restraint with students in accordance with this policy and accompanying regulation. Such actions shall not be considered child abuse or corporal punishment if performed in good faith and in compliance with this policy and accompanying regulation.

Physical intervention

Corporal punishment shall not be administered to any student by any district employee.

Within the scope of their employment, district employees may use reasonable and appropriate physical intervention with a student to accomplish the following:

1. To quell a disturbance threatening physical injury to the student or others.
2. To obtain possession of weapons or other dangerous objects upon or within the control of the student.
3. For the purpose of self-defense.
4. For the protection of persons against physical injury or to prevent the destruction of property which could lead to physical injury to the student or others.

Under no circumstances shall a student be physically held for five or more minutes unless the provisions regarding restraint contained in this policy and accompanying regulation are followed.

Restraint

Restraint is defined by state law and this policy as any method or device used to involuntarily limit a student's freedom of movement, including but not limited to bodily physical force, mechanical devices, chemicals and seclusion. Restraint, however, does not include the holding of a student for less than five minutes by a district employee for the protection of the student or others; brief holding of a student by one adult for the purpose of calming or

comforting the student; minimal physical contact for the purpose of safely escorting the student from one area to another; or minimal physical contact for the purpose of assisting the student in completing a task or response.

District employees shall not use restraint as a punitive form of discipline or as a threat to control or gain compliance of a student's behavior. District employees are also prohibited from restraining a student by use of a mechanical restraint or chemical restraint, as those terms are defined by applicable State Board of Education Rules and this policy's accompanying regulation.

Restraint shall only be administered by district employees trained in accordance with applicable State Board of Education Rules.

Exceptions

The restraint provisions in this policy and accompanying regulation shall not apply:

1. to peace officers as defined by C.R.S. 16-2.5-101 *et seq.* who are acting within the scope of their employment or in accordance with C.R.S. 16-3-109; or
2. when the district is engaged in transporting a student from one facility or location to another facility or location, and it is within the scope of the district's powers and authority to effect such transportation.

File: JKA-R

A. Definitions

In accordance with the State Board of Education Rules for the Administration of the Protection of Persons from Restraint Act, the following definitions apply for purposes of this regulation and accompanying policy (JKA).

1. "Restraint" means any method or device used to involuntarily limit freedom of movement, including but not limited to bodily physical force, mechanical devices, chemicals and seclusion.
2. "Physical restraint" means the use of bodily, physical force to involuntarily limit an individual's freedom of movement. "Physical restraint" does not include:
 - a. holding of a student for less than five minutes by a staff person for the protection of the student or others;
 - b. brief holding of a student by one adult for the purpose of calming or comforting the student;
 - c. minimal physical contact for the purpose of safely escorting a student from one area to another;
 - d. minimal physical contact for the purpose of assisting the student in completing a task or response.
3. "Mechanical restraint" means a physical device used to involuntarily restrict the movement of a student or the movement or normal function of the student's body. "Mechanical restraint" does not include:
 - a. devices recommended by a physician, occupational therapist or physical therapist and agreed to by a student's IEP team or Section 504 team and used in accordance with the student's Individualized Education Program (IEP) or Section 504 plan;
 - b. protective devices such as helmets, mitts, and similar devices used to prevent self-injury and in accordance with a student's IEP or Section 504 plan;
 - c. adaptive devices to facilitate instruction or therapy and used as recommended by an occupational therapist or physical therapist, and consistent with a student's IEP or Section 504 plan; or
 - d. positioning or securing devices used to allow treatment of a student's medical needs.

4. “Chemical restraint” means administering medication to a student (including medications prescribed by the student’s physician) on an as needed basis for the sole purpose of involuntarily limiting the student’s freedom of movement. “Chemical restraint” does not include:
 - a. prescription medication that is regularly administered to the student for medical reasons other than to restrain the student’s freedom of movement (e.g. Asthma-cort, medications used to treat mood disorders or ADHD, Glucagon); or
 - b. the administration of medication for voluntary or life-saving medical procedures (e.g. EpiPens, Diastat).
5. “Seclusion” means the placement of a student alone in a room from which egress is involuntarily prevented. “Seclusion” does not mean:
 - a. placement of a student in residential services in the student’s room for the night; or
 - b. time-out.
6. “Time-out” is the removal of a student from potentially rewarding people or situations. A time-out is not used primarily to confine the student, but to limit accessibility to reinforcement. In time-out, the student is not physically prevented from leaving the designated time-out area and is effectively monitored by staff.
7. “Emergency” means serious, probable, imminent threat of bodily injury to self or others with the present ability to effect such bodily injury. Emergency includes situations in which the student creates such a threat by abusing or destroying property.
8. “Bodily injury” means physical pain, illness or any impairment of physical or mental condition as defined in C.R.S. 18-1-901(3)(c).
9. “State Board Rules” mean the State Board of Education rules governing the Administration of the Protection of Persons from Restraint Act, 1 CCR 301-45, §§ 2620-R-1.00 et seq.
10. “Parent” shall be as defined by the State Board Rules.

B Basis for use of restraint

Restraints shall only be used:

1. In an emergency and with extreme caution; and
2. After:
 - a. the failure of less restrictive alternatives (such as Positive Behavior Supports, constructive and non-physical de-escalation, and re-structuring the environment); or
 - b. a determination that such alternatives would be inappropriate or ineffective under the circumstances.
3. Restraints shall never be used as a punitive form of discipline or as a threat to gain control or gain compliance of a student’s behavior.
4. School personnel shall:
 - a. use restraints only for the period of time necessary and using no more force than necessary; and
 - b. prioritize the prevention of harm to the student.

C. Duties related to the use of restraint – general requirements

When restraints are used, school personnel shall ensure that:

1. no restraint is administered in such a way that the student is inhibited or impeded from breathing or communicating;
2. no restraint is administered in such a way that places excess pressure on the student’s chest, back, or causes positional asphyxia;
3. restraints are only administered by district staff who have received training in accordance with the State Board Rules;
4. opportunities to have the restraint removed are provided to the student who indicates he/she is willing to cease the violent or dangerous behavior;
5. when it is determined by trained district staff that the restraint is no longer necessary to protect the student or others (i.e. the emergency no longer exists), the restraint shall be removed; and
6. the student is reasonably monitored to ensure the student’s physical safety.

Additionally, in the case of seclusion, staff shall reintegrate the student or clearly communicate to the student that the student is free to leave the area used to seclude the student.

D. Proper administration of specific restraints

1. Chemical restraints shall not be used by school district staff.
2. Mechanical restraints shall not be used by school district staff.
3. Physical restraint may be used by school district staff in an emergency. However:
 - a. a person administering the physical restraint shall only use the amount of force necessary to stop the dangerous or violent actions of the student;
 - b. a restrained student shall be continuously monitored to ensure that the breathing of the student in such physical restraint is not compromised; and
 - c. a student shall be released from physical restraint within fifteen (15) minutes after the initiation of the restraint, except when precluded for safety reasons.
4. Seclusion may be used in an emergency. However:
 - a. relief periods from seclusion shall be provided for reasonable access to toilet facilities; and
 - b. any space in which a student is secluded shall have adequate lighting, ventilation and size. To the extent possible under the specific circumstances, the space should be free of injurious items.

E. Notification requirements

1. If there is a reasonable probability that restraint might be used with a particular student, appropriate school staff shall notify, in writing, the student's parents, and, if appropriate, the student of:
 - a. the restraint procedures (including types of restraints) that might be used;
 - b. the specific circumstances in which restraint might be used; and
 - c. the staff who may be involved.
2. For students with disabilities, if the parents request a meeting with school personnel to discuss the notification provided, school personnel shall ensure that the meeting is convened.
3. The required notification may occur at the meeting where the student's behavior plan or IEP is developed/reviewed.

F. Documentation and review of specific incidents of restraint

1. The district shall ensure that a review process is conducted for each incident of restraint. The purpose of this review shall be to ascertain that appropriate procedures were followed and to minimize future use of restraint. The steps of the review process are described below.
2. First, any time that restraint is used, the school principal or designee shall verbally notify the student's parents as soon as possible but no later than the end of the school day that restraint was used.
3. Within one (1) school day, the staff involved shall submit a written report regarding the incident to school administration.
4. Within two (2) school days, appropriate school staff shall meet to review the incident. This review shall include, but not be limited to:
 - a. review of the incident, including review of the written report submitted by the staff involved and any related documentation to ensure the use of alternative strategies; and
 - b. recommendations for adjustment of procedures, if appropriate.
5. A written report based on the findings of the staff review described in paragraph F(4) above shall be emailed, faxed or mailed to the student's parents within 5 calendar days of the use of restraint. The written report of the use of restraint shall include:
 - a. the antecedent to the student's behavior if known;
 - b. a description of the incident;
 - c. efforts made to de-escalate the situation;
 - d. alternatives that were attempted;
 - e. the type and duration of the restraint used;
 - f. injuries that occurred, if any; and
 - g. the staff present and staff involved in administering the restraint.
6. A copy of the written report shall be placed in the student's confidential file.
7. If requested by the district or the student's parents, the district shall convene a meeting with parents to review the incident. For students with IEPs or Section 504 plans, such review may occur through the IEP or Section 504 process.

G. General review process

1. The district shall ensure that a general review process is conducted and documented in writing at least annually. The purpose of the general review is to ascertain that the district is properly administering restraint, identifying additional training needs, minimizing and preventing the use of restraint by increasing the use of positive behavior interventions, and reducing the incidence of injury to students and staff.
2. The review shall include, but is not limited to, an analysis of:
 - a. the written reports prepared pursuant to paragraph F(5), including, but not limited to, analysis of the procedures used during any incidents of restraint, the preventative or alternative techniques tried, and staff compliance with documentation and review requirements contained in paragraph F above;
 - b. training needs of staff;
 - c. staff to student ratio; and
 - d. environmental conditions, including physical space, student seating arrangements, and noise levels.

H. Staff training

1. The district shall ensure that staff utilizing restraint in schools are trained in accordance with the State Board Rules.
2. Training shall include:
 - a. a continuum of prevention techniques;
 - b. environmental management;
 - c. a continuum of de-escalation techniques;
 - d. nationally recognized physical management and restraint practices, including, but not limited to, techniques that allow restraint in an upright or sitting position and information about the dangers created by prone restraint;
 - e. methods to explain the use of restraint to the student who is to be restrained and to the student's family; and
 - f. appropriate documentation and notification procedures as described in paragraphs E and F above.
3. Retraining shall occur at a frequency of at least every two years.

Disciplinary Removal from Classroom

File: JKBA*

It is the policy of the Board to maintain classrooms in which student behavior does not interfere with the ability of the teacher to teach effectively or the ability of other students to participate in classroom learning activities.

Students shall be expected to abide by the code of conduct adopted by the Board and any other appropriate classroom rules of behavior established by the building principal and/or classroom teacher for the purpose of maintaining order and a favorable academic atmosphere. Any student who violates the code of conduct or other classroom rules may be subject to removal from class and/or disciplinary action.

Student removal from class is a serious measure and should not be imposed in an arbitrary, casual or inconsistent manner. Behavioral expectations are always more constructive and more likely to be followed when they are communicated as clearly as possible to students. However, it is neither possible nor necessary to specify every type of improper or inappropriate behavior, or every circumstance that would justify removal from class under this policy. Teachers are expected to exercise their best professional judgment in deciding whether it is appropriate to remove a student from class in any particular circumstance. All instances of formal removal from class shall be documented.

A teacher is authorized to immediately remove a student from the teacher's classroom if the student's behavior:

1. violates the code of conduct adopted by the Board;
2. is dangerous, unruly, or disruptive; or
3. seriously interferes with the ability of the teacher to teach the class or other students to learn.

A student with a disability may be removed from class and placed in an alternative educational setting only to the extent authorized by state and federal laws and regulations.

Removal from class under this policy does not prohibit the district from pursuing or implementing additional disciplinary measures, including but not limited to detentions, suspensions, or expulsions for the conduct or behavior for which the student was removed.

The superintendent is directed to establish procedures to implement this policy so that removals from a classroom occur in a consistent manner throughout the district. Parents/guardians shall be notified of the student's removal from class in accordance with established procedures.

Disciplinary Removal from Classroom

File: JKBA*-R

Staff, including administrators and teachers, must use their training, experience and authority to create schools and classes where effective learning is possible. Students should be able to attend school and classes as free as reasonably possible from unnecessary and unwarranted distraction and disruption. Such behavior interferes with the classroom environment and will not be tolerated.

A student who engages in classroom conduct or behavior prohibited by the code of conduct may be removed from class by a teacher and placed temporarily in an alternative setting in accordance with these procedures and consistent with state and federal law.

For purposes of this policy and procedure, a "class" includes regular classes, special classes, resource room sessions, labs, study halls, library time, school assemblies and other such learning opportunities taught or supervised by a teacher. "Teacher" means a person holding a teaching license or authorization issued by the state who is employed to instruct, direct or supervise the instructional program. It does not include substitute teachers as defined in state law.

Informal removal to the principal's office

An informal removal from class occurs when a student breaks one or several classroom rules in a class period or during the school day. The teacher may remove a student by using approved discipline management techniques such as having the student stand in the hall outside the door or some other safe "time out" environment either in or out of the classroom, or sending the student to the principal's office for a short period of time. Generally, the student will be allowed to return to his or her classroom later the same day. The procedures set forth below do not apply to an informal removal from class.

Formal removal from class

A teacher may formally remove a student from class for the following conduct or behavior:

1. Conduct that is prohibited in the student code of conduct. It should be noted that building administrators make decisions regarding suspension and the superintendent makes recommendations for expulsion. Thus, a teacher's decision to remove a student from class for behavior covered by district policies regarding suspension and expulsion may, but does not necessarily, mean that the student will also be suspended or expelled.
2. Disruptive, dangerous, or unruly behavior. The following behavior, by way of example and without limitation, may be determined to be disruptive, dangerous, or unruly:
 - a. inappropriate physical contact intended or likely to hurt, distract, or annoy others such as hitting, biting, pushing, shoving, poking, pinching, or grabbing;
 - b. Inappropriate verbal conduct intended or likely to upset, distract, or annoy others such as name calling, teasing, or baiting;
 - c. Behavior that may constitute sexual or other harassment;
 - d. Repeated or extreme inappropriate verbal conduct likely to disrupt the educational environment, particularly when others are talking (e.g., lecture by teacher, response by other student, presentation by visitor) or during quiet study time;
 - e. Throwing any object, particularly one likely to cause harm or damage such as books, pencils, scissors, etc.;
 - f. inciting other students to act inappropriately or to disobey the teacher or school or class rules, including without limitation, inciting others to walk out;

- g. Destroying or damaging the property of the school, the teacher or another student; or
 - h. Loud, obnoxious, or outrageous behavior.
3. Conduct that otherwise interferes with the ability of the teacher to teach effectively. Students are required to cooperate with the teacher by listening attentively, obeying all instructions promptly, and responding appropriately when called upon. A student's noncompliance may, in turn, distract others either by setting a bad example or by diverting the class from the lesson to the student's inappropriate behavior. By way of example and without limitation, this behavior includes:
- a. Open defiance of the teacher, manifest in words, gestures, or other overt behavior;
 - b. Open disrespect of the teacher, manifest in words, gestures, or other overt behavior; or
 - c. Other behavior likely or intended to sabotage or undermine classroom instruction.

Procedures to be followed for formally removing a student from class

Unless the behavior is extreme as determined by the teacher, a teacher shall warn a student that continued misbehavior may lead to removal from class. When the teacher determines that removal is appropriate, the teacher should take one of the following courses of action:

- 1. Instruct the student to go to the main office. Unless prevented by the immediate circumstances, the teacher shall send a note with the student stating the reason for the student's removal and call the building principal's office.
- 2. Obtain coverage for the class and escort the student to the main school office. The teacher shall inform the building principal or designee of the reason for the student's removal from class.
- 3. Seek assistance from the main school office or other available staff. When assistance arrives, the teacher or the other staff member should accompany the student to the main office. The principal or designee shall be informed of the reason for the student's removal.

Within 24 hours of the student's removal from class, the teacher shall submit to the building principal or designee a short and concise written explanation of the basis for the student's removal from class.

Notice to parent/guardian

As soon as practicable, the building principal or designee shall notify the student's parent/guardian, in writing, that the student was removed from class. The written notice shall specify the class from which the student was removed, the duration of the removal, and the basis for the removal as stated by the teacher. The notice shall provide an opportunity for the parent/guardian to attend a student-teacher conference regarding the removal. If the student's removal from class is also subject to disciplinary action (i.e., suspension or expulsion) for the particular classroom misconduct, the student's parent/guardian shall also be notified of the disciplinary action in accordance with legal and policy requirements.

Placement procedures

Each building principal shall designate a room or other suitable place in the school to serve as the short-term removal area.

When the student arrives at the main office, the building principal or designee shall give the student an opportunity to briefly explain the situation. If the building principal or designee is not available immediately upon the student's arrival, the student will be taken to the designated short-term removal area and the principal or designee will speak to the student as soon as practicable.

At the discretion of the building principal or designee, the student may be placed in another appropriate class, program or educational setting, provided students are supervised in such alternative setting.

Students placed in the short-term removal area shall be supervised. During their time of placement, students are expected to do work of an academic nature. If possible, such work shall be related to the work in the class from which the student was removed or may be related to the student's misconduct. In no event shall a student's time in the short-term removal area be recreation or other free time.

In most cases, a student shall remain in the short-term removal area for the duration of the class from which he or she was removed. Prior to allowing the student to resume his or her normal schedule, the building principal or designee shall speak to the student to determine whether the student is, or appears to be, ready and able to return to class without recurrence of the behavior for which the student was removed. In the event it is not deemed appropriate to return the student to regular classes, the building principal or designee may consider a different placement option.

Behavior plan

The principal or designee and teacher shall consider whether a behavior plan should be developed for the student upon the student's first removal from class. The behavior plan will be similar, if not the same, as a remedial discipline plan developed for disruptive students in accordance with Policy JK. A behavior plan shall be developed and implemented after the teacher formally removes a student from class for the second time and must be developed and implemented before a student may be removed from class for the remainder of the term of the class.

Removal for remainder of term

Upon the third formal removal from class, a student may be officially removed from the teacher's class for the remainder of the term. The principal shall be responsible for determining the appropriate educational placement of the student, which may or may not be another section of the same class, depending on a variety of circumstances. The principal's decision regarding placement is final.

Once a student is officially removed from class, a loss of credit may occur if the principal determines that it would be too disruptive to enroll the student in another class after the start of the term.

Review by principal

The principal is required to collect data pertaining to the number of students who are removed from class during the year. This information will be reported to the public on the safety section of the school report card. While there are a variety of factors to consider when analyzing this data, an unusually high number of formal documented student removals from any one teacher may be cause for concern. The principal shall review this data with teachers at least annually.

A student may be removed from a classroom by a teacher only in accordance with the requirements of this policy and the applicable provisions of state and federal law. All teacher actions under this policy shall be subject to evaluation and supervision by the teacher's supervisor as provided in school district policies and procedures, including the evaluation policy.

Suspension/Expulsion of Students

File: JKD/JKE

The Board of Education shall provide due process of law to students, parents/guardians and school personnel through written procedures consistent with law for the suspension or expulsion of students and the denial of admission. (See JKD/JKE-R.)

As an alternative to suspension, the principal or designee may permit the student to remain in school with the consent of the student's teachers if the parent/guardian attends class with the student for a period of time specified by the principal or designee. If the parent/guardian does not agree or fails to attend class with the student, the student shall be suspended in accordance with the accompanying regulations.

This alternative to suspension shall not be used if expulsion proceedings have been or are about to be initiated or if the principal or designee determines that the student's presence in school, even if accompanied by a parent/guardian, would be disruptive to the operations of the school or be detrimental to the learning environment.

Delegation of authority

1. The Board of Education delegates to the principals of the school district or to a person designated in writing by the principal the power to suspend a student in that school for not more than five school days on the grounds stated in C.R.S. 22-33-106 (1) (a), (1) (b), (1) (c) or (1) (e) or not more than 10 school days on the grounds stated in C.R.S. 22-33-106 (1) (d) unless expulsion is mandatory under law (see exhibit coded JKD/JKE-E), but the total period of suspension shall not exceed 25 school days.
2. The Board of Education delegates to the superintendent the authority to suspend a student, in accordance with C.R.S. 22-33-105, for an additional 10 school days plus up to and including an additional 10 days necessary in order to present the matter to the Board.
3. The Board of Education retains the authority to deny admission to or expel for any period not extending beyond one year any student whom the Board, in accordance with the limitations imposed by Title 22, Article 33, of the Colorado Revised Statutes, shall determine does not qualify for admission to or continued attendance at the public schools of the district .

Expulsion for unlawful sexual behavior or crimes of violence

When a petition is filed in juvenile court or district court that alleges a student between the ages of 12 to 18 years has committed an offense that would constitute unlawful sexual behavior or a crime of violence if committed by an adult, basic identification information, as defined in state law, along with the details of the alleged delinquent act or offense, is required by law to be provided immediately to the school district in which the juvenile is enrolled.

The information shall be used by the Board of Education to determine whether the student has exhibited behavior that is detrimental to the safety, welfare, and morals of the other students or school personnel and whether educating the student in the school may disrupt the learning environment in the school, provide a negative example for other students, or create a dangerous and unsafe environment for students, teachers, and other school personnel. The Board shall take appropriate disciplinary action, which may include suspension or expulsion, in accordance with the student code of conduct and related policies.

The Board may determine to wait until the conclusion of court proceedings to consider expulsion, in which case it shall be the responsibility of the district to provide an alternative educational program for the student as specified in state law.

Annual reports

The Board annually shall report to the State Board of Education the number of students expelled from district schools for disciplinary reasons or for failure to submit certificates of immunization. Expelled students shall not be included in calculating the dropout rate for the school or the district.

Suspension/Expulsion of Students

File: JKD/JKE-R

(Hearing Procedures)

A. Procedure for suspension of 10 days or less

Through written policy the Board of Education has delegated to any school principal the power to suspend a student for not more than five or 10 days, depending upon the type of infraction. Pursuant to policy JKD/JKE, the superintendent has been delegated the power to suspend a student for additional periods of time. However, the total period of suspension will not exceed 25 school days. As a general rule, a suspension will be 10 days or less.

The following procedures shall be followed in any suspension, unless the student is suspended pending an expulsion proceeding, in which case the expulsion procedures shall apply.

When the term "parent/guardian" is used, it refers to the parent/guardian of students under 18 years of age; if the student is 18 years or older, it refers to the student. All references to parent/guardian are intended to also include legal custodian.

1. **Notice.** The principal, designee or the superintendent at the time of contemplated action will give the student and the parent/guardian notice of the contemplated action. Such notice may be oral or in writing. If oral, such notice will be given in person. If written, delivery may be by United States mail addressed to the last known address of the student or student's parent/guardian.
2. **Contents of notice.** The notice will contain the following basic information:
 - a. A statement of the charges against the student.
 - b. A statement of what the student is accused of doing.
 - c. A statement of the basis of the allegation. Specific names may be withheld if necessary.

This information need not be set out formally but should sufficiently inform the student and parent/guardian of the basis for the contemplated action.

3. **Informal hearing.** In an informal setting, the student will be given an opportunity to admit or deny the accusation and to give his or her version of the events. The administrator may allow the student to call witnesses or may personally call the accuser or other witnesses. The administrator may hold a more extensive hearing in order to gather relevant information prior to making a decision on the contemplated action.
4. **Timing.** The notice and informal hearing should precede removal of the student from school. There need be no delay between the time notice is given and the time of the informal hearing.
5. **If the student's presence in school presents a danger.** Notice and an informal hearing need not be given prior to removal from school where a student's presence poses a continuing danger to persons or property or an ongoing threat of disrupting the academic process. In this case, an informal hearing will follow as soon after the student's removal as practicable.
6. **Notification following suspension.** If a student is suspended the administrator delegated the authority to suspend will immediately notify the parent/guardian that the student has been suspended, the grounds for such suspension and the period of such suspension. The notification will include the time and place for the parent/guardian to meet with the administrator to review the suspension.
7. **Removal from school grounds.** A suspended student must leave the school building and the school grounds immediately after the parent/guardian and administrator have determined the best way to transfer custody of the student to the parent/guardian.
8. **Readmittance.** No student will be readmitted to school until the meeting with the parent/guardian has taken place or until, in the opinion of the administrator, the parent/guardian has substantially agreed to review the suspension with the administrator. However, if the administrator cannot contact the parent/guardian or if the parent/guardian repeatedly fails to appear for scheduled meetings, the administrator may readmit the student. The meeting will address whether there is a need to develop a remedial discipline plan for the student in an effort to prevent further disciplinary action.
9. **Make-up work.** Suspended students will be provided an opportunity to make up school work during the period of suspension, so the student is able to reintegrate into the educational program of the district following the period of suspension. Students will receive full or partial academic credit to the extent possible for makeup work which is completed satisfactorily.

B. Procedure for expulsion or denial of admission

In the event the Board of Education contemplates action denying admission to any student or prospective student or expelling any student, the following procedures shall be followed:

1. **Notice.** Not less than 10 days prior to the date of the contemplated action, the Board of Education or an appropriate administrative officer of the district will cause written notice of such proposed action to be delivered to the student and the student's parent/guardian. Such delivery may be by United States mail addressed to the last known address of the student or the student's parent/guardian.

2. **Emergency Notice.** In the event it is determined that an emergency exists necessitating a shorter period of notice, the period of notice may be shortened provided that the student or the student's parent/guardian have actual notice of the hearing prior to the time it is held.
3. **Contents of Notice.** The notice will contain the following basic information:
 - a. A statement of the basic reasons alleged for the contemplated denial of admission or expulsion.
 - b. A statement that a hearing on the question of expulsion or denial of admission will be held if requested by the student or parent/guardian within 10 days after the date of the notice.
 - c. A statement of the date, time and place of the hearing in the event one is requested.
 - d. A statement that the student may be present at the hearing and hear all information against him or her, that the student will have an opportunity to present such information as is relevant and that the student may be accompanied and represented by a parent/guardian and an attorney.
 - e. A statement that failure to participate in such hearing constitutes a waiver of further rights in the matter.

4. **Conduct of hearing.** A hearing may be requested by the parent/guardian. Such hearing will be conducted by the Board of Education. The hearing may be conducted in open session or may be closed except to those individuals deemed advisable by the Board president but including in all events the student, the parent/guardian and, if requested, the student's attorney. Such individuals as may have pertinent information will be admitted to a closed hearing to the extent necessary to provide such information.

Testimony and information may be presented under oath. However, technical rules of evidence will not be applicable, and the Board may consider and give appropriate weight to such information or evidence it deems appropriate. The student's written statement, if any, may be presented as evidence in accordance with applicable law. The student or representative may question individuals presenting information.

A sufficient record of the proceedings shall be kept so as to enable a transcript to be prepared in the event either party so requests. Preparation of the transcript will be at the expense of the party requesting the same.

The Board of Education may retire to executive session to review and discuss the evidence. However, the final decision will be made in public session. The Board will inform the student and the student's parent/guardian of the right to judicial review.

5. **Information to parents.** Upon expelling a student, district personnel shall provide information to the student's parent/guardian concerning the educational alternatives available to the student during the period of expulsion, including the right of a parent/guardian to request that the district provide services during the expulsion. If the parent or guardian chooses to provide a home-based education program for the student, district personnel will assist the parent/guardian in obtaining appropriate curricula for the student if requested by the parent/guardian.

If a student is expelled and is not receiving educational services through the district, the school district shall contact the expelled student's parent/guardian at least once every 60 days until the student is eligible to re-enroll to determine whether the child is receiving educational services. District personnel need not contact the parent/guardian after the student is enrolled in another school district or in an independent or parochial school, or if the student is committed to the department of human services or sentenced through the juvenile justice system.

6. **Readmittance.** A student who has been expelled shall be prohibited from enrolling or re-enrolling in the same school in which the victim of the offense or member of the victim's immediate family is enrolled or employed when:
 - a. the expelled student was convicted of a crime, adjudicated a juvenile delinquent, received a deferred judgment or was placed in a diversion program as a result of committing the offense for which the student was expelled;
 - b. there is an identifiable victim of the expelled student's offense; and
 - c. the offense for which the student was expelled does not constitute a crime against property.

If the district has no actual knowledge of the name of the victim, the expelled student shall be prohibited from enrolling or re-enrolling only upon request of the victim or a member of the victim's immediate family.

No student will be readmitted to school until after a meeting between the principal or designee and the parent/guardian has taken place except that if the administrator cannot contact the parent/guardian or if the parent/guardian repeatedly fails to appear for scheduled meetings, the administrator may readmit the student.

C. Procedure for crimes of violence or unlawful sexual behavior

The following procedures will apply when the district receives notification that a student has been charged in juvenile or district court with a crime of violence or unlawful sexual behavior, as those terms are defined by state law.

1. The Board or its designee will make a preliminary determination whether it will proceed with an expulsion hearing, based on the following factors:
 - a. Whether the student has exhibited behavior that is detrimental to the safety, welfare and morals of other students or school personnel.
 - b. Whether educating the student in school may disrupt the learning environment, provide a negative example for other students or create a dangerous and unsafe environment for students, teachers and other school personnel.
2. If it is determined that the student should not be educated in the schools of the district, the district may suspend or expel the student, in accordance with the procedures set forth above.
3. Alternatively, suspension or expulsion proceedings may be postponed, pending the outcome of the court proceedings. If the suspension or expulsion proceedings are postponed, the student will not be permitted to return to school during that period. An appropriate alternative education program, including but not limited to, an online program authorized by state law or a home-based education program will be established for the student during the period pending the resolution of the juvenile proceedings. The time that a student spends in an alternative education program will not be considered a period of suspension or expulsion.
4. If the student pleads guilty to the charge, is found guilty or is adjudicated a delinquent juvenile, the Board or designee may proceed to suspend or expel the student following the procedures set forth in these regulations.
5. Information regarding the details of the alleged crime of violence or unlawful sexual behavior will be used by the Board or its designee for the purposes set forth in this policy, but shall remain confidential unless the information is otherwise available to the public by law.

Expulsion Prevention

File: JKG

District personnel shall enforce provisions of the student code of conduct so that students demonstrating unacceptable behavior and their parents/guardians or legal custodians understand that such behavior shall not be tolerated and shall be dealt with according to the code.

However, it is the belief of the Board that all available alternatives should be explored to help students who are at risk of expulsion before expulsion becomes a necessary step. Expulsion shall be regarded as a punishment of last resort unless a student's behavior would cause imminent harm to others in the school, or when federal law or the school's conduct and discipline codes require expulsion. The principal of each school shall work with the professional staff to identify students who are at risk of suspension or expulsion. Among those students who may be at risk are those who are truant, who have been or are likely to be declared habitually truant, or who are likely to be declared habitually disruptive.

The district, working with the student's parent/guardian, shall provide students who are identified by the district as at risk of suspension or expulsion with a plan to provide necessary support services to help them avoid expulsion. Services may include:

1. educational services (tutoring, on line services, alternative educational programs or career and technical education programs that provide instruction in the academic areas of reading, writing, mathematics, science and social studies)
2. counseling services

3. drug or alcohol addiction treatment programs, and/or
4. family preservation services.

The district shall not pay for such services unless otherwise required by law.

In some cases, a remedial discipline plan may be the means by which various intervention and prevention services are identified and made available to a student. Support services may be provided through agreements with appropriate local governmental agencies, community-based organizations and institutions of higher education.

The failure of the school district to identify a student for participation in an expulsion prevention program or the failure of such program to remediate a student's behavior shall not be grounds to prevent school personnel from proceeding with appropriate disciplinary measures including but not limited to suspension and/or expulsion.

Immunization of Students

File: JLCB

The Board directs the superintendent or designee(s) to annually provide parents/guardians of each student enrolled in the district a copy of the standardized immunization document developed by the Colorado Department of Public Health and Environment. The standardized immunization document includes a list of required and recommended immunizations and the age at which each immunization should be given.

No student is permitted to attend or continue to attend any school in this district without meeting the legal requirements of immunization against disease unless the student has a valid exemption for health, religious, personal or other reasons as provided by law.

Students who do not submit an up-to-date certificate of immunization or a written authorization signed by one parent/guardian requesting local health officials to administer the immunizations or a valid exemption will be suspended and/or expelled from school according to regulation JLCB-R.

All information distributed to parents/guardians by the district will inform them of their rights to seek an exemption from immunization requirements.

Administering Medications to Students

File: JLCD

School personnel shall not administer prescription or nonprescription medications to students unless appropriate administration cannot reasonably be accomplished outside of school hours and the student's parent/guardian is not available to administer the medication during the school day.

Medication may be administered to students by school personnel whom a registered nurse has trained and delegated the task of administering such medication. For purposes of this policy, the term "medication" includes both prescription

medication and nonprescription medication. The term “nonprescription medication” includes but is not limited to over-the-counter medications, homeopathic and herbal medications, vitamins and nutritional supplements.

Medication may be administered to students by the school nurse or other school designee only when the following requirements are met:

1. Medication shall be in the original properly labeled container. If it is a prescription medicine, the student's name, name of the medication, dosage, how often it is to be administered, and the name of the prescribing health care practitioner shall be printed on the container.
2. The school shall have received written permission to administer the medication from the student's health care practitioner with prescriptive authority under Colorado law.
3. The school shall have received written permission from the student's parent/guardian to administer the medication to the student.
4. The parent/guardian shall be responsible for providing all medication to be administered to the student.

Self-administration of medication for asthma, allergies or anaphylaxis

A student with asthma, a food allergy, other severe allergies, or a related, life-threatening condition may possess and self-administer medication to treat the student's asthma, food or other allergy, anaphylaxis or related, life-threatening condition. Self-administration of such medication may occur during school hours, at school-sponsored activities, or while in transit to and from school or a school-sponsored activity. Student possession and self-administration of such medication shall be in accordance with regulation JLCD-R.

Authorization for a student to possess and self-administer medication to treat the student's asthma, food or other allergy, anaphylaxis or other related, life-threatening condition may be limited or revoked by the school principal after consultation with the school nurse and the student's parent/guardian if the student demonstrates an inability to responsibly possess and self-administer such medication.

Student possession, use, distribution, sale or being under the influence of medication inconsistent with this policy shall be considered a violation of policy JICH, Drug and Alcohol Use by Students and may subject the student to disciplinary consequences, including suspension and/or expulsion, in accordance with policy JICH.

Administration of Medical Marijuana to Qualified Students File: JLCDB

The Board strives to honor families' private medical decisions while ensuring a learning environment free of disruption. To accomplish these goals, the district restricts the administration of medications, including medical marijuana, during school hours unless administration cannot reasonably be accomplished outside of school hours.

Administration of medical marijuana to qualified students shall be in accordance with this policy. Administration of all other prescription and nonprescription medications to students shall be in accordance with applicable law and the Board's policy concerning the administration of medications to students.

Definitions

For purposes of this policy, the following definitions shall apply:

1. “Designated location” means a location identified in writing by the school district in its sole discretion and may include a location on the grounds of the school in which the student is enrolled, upon a school bus in Colorado, or at a school-sponsored event in Colorado.
2. “Permissible form of medical marijuana” means nonsmokeable products such as oils, tinctures, edible products or lotions that can be administered and fully ingested or absorbed in a short period of time. Patches and other forms of administration that continue to deliver medical marijuana to a qualified student while at school may be appropriate for students who receive ongoing adult assistance or on a case-by-case basis as determined by the district when adequate protections against misuse may be made. Forms of medical marijuana not included in this definition may be proposed by the qualified student’s primary caregiver to the superintendent, who may authorize such a request after consultation with appropriate medical personnel chosen by the district.
3. “Primary caregiver” means the qualified student’s parent, guardian or other responsible adult over eighteen years of age who is identified by the student’s parent/guardian as the qualified student’s primary caregiver. In no event shall another student be recognized as a primary caregiver. Any primary caregiver seeking access to school or district property, a school bus or school-sponsored event for purposes of this policy must comply with the Board’s policy and/or procedures concerning visitors to schools and all other applicable policies.
4. “Qualified student” means a student who holds a valid registration from the state of Colorado (license issued by the Colorado Department of Public Health and Environment) for the use of medical marijuana and for whom the administration of medical marijuana cannot reasonably be accomplished outside of school hours.

Permissible administration of medical marijuana to a qualified student

A qualified student’s primary caregiver may administer a permissible form of medical marijuana to a qualified student in a designated location if all of the following parameters are met:

1. The qualified student’s parent/guardian provides the school with a copy of the student’s valid registration from the state of Colorado authorizing the student to receive medical marijuana;
2. The qualified student’s parent/guardian signs a written acknowledgement assuming all responsibility for the provision, administration, maintenance and use of medical marijuana under state law, and releases the district from liability for any injury that occurs pursuant to this policy;
3. The qualified student’s parent/guardian or primary caregiver shall be responsible for providing the permissible form of medical marijuana to be administered to the qualified student;
4. The district determines, in its sole discretion, that a location and a method of administration of a permissible form of medical marijuana are available that do not create risk of disruption to the educational environment or exposure to other students;
5. After administering the permissible form of medical marijuana to the qualified student, the student’s primary caregiver shall remove any remaining medical marijuana from the grounds of the school, district, school bus or school-sponsored event; and
6. The district prepares, with the input of the qualified student’s parent/guardian, a written plan that identifies the form, designated location(s), and any protocol regarding administration of a permissible form of medical marijuana to the qualified student. The written plan shall be signed by the school administrator, the qualified student (if capable) and the qualified student’s parent/guardian.

Additional parameters

School personnel shall not administer or hold medical marijuana in any form.

This policy conveys no right to any student or to the student’s parents/guardians or other primary caregiver to demand access to any general or particular location on school or district property, a school bus or at a school-sponsored event to administer medical marijuana.

This policy shall not apply to school grounds, school buses or school-sponsored events located on federal property or any other location that prohibits marijuana on its property.

Permission to administer medical marijuana to a qualified student may be limited or revoked if the qualified student and/or the student’s primary caregiver violates this policy or demonstrates an inability to responsibly follow this policy’s parameters.

Student possession, use, distribution, sale or being under the influence of marijuana inconsistent with this policy may be considered a violation of Board policy concerning drug and alcohol involvement by students or other

Board policy and may subject the student to disciplinary consequences, including suspension and/or expulsion, in accordance with applicable Board policy.

If the federal government indicates that the district's federal funds are jeopardized by this policy, the Board declares that this policy shall be suspended immediately and that the administration of any form of medical marijuana to qualified students on school property, on a school bus or at a school-sponsored event shall not be permitted. The district shall post notice of such policy suspension and prohibition in a conspicuous place on its website.

Parents/guardians and eligible students have the right to review any survey, assessment, analysis or evaluation administered or distributed by a school to students whether created by the district or a third party. For purposes of this policy, "eligible student" means a student 18 years of age or older or an emancipated minor. Any survey, assessment, analysis or evaluation administered or distributed by a school to students shall be subject to applicable state and federal laws protecting the confidentiality of student records.

Survey, assessment, analysis or evaluation for which consent is required

Except as otherwise permitted by law, students shall not be required to submit to a survey, assessment, analysis, or evaluation that is intended to reveal information, whether the information is personally identifiable or not, without prior written consent of the parent/guardian or eligible student, if that survey, assessment, analysis, or evaluation reveals information in the following areas ("protected information"):

1. political affiliations or beliefs of the student or the student's parent/guardian
2. mental or psychological conditions of the student or the student's family
3. sexual behavior or attitudes
4. illegal, anti-social, self-incriminating or demeaning behavior
5. critical appraisals of other individuals with whom the student has a close family relationship
6. legally recognized privileged or analogous relationships, such as those with lawyers, physicians and ministers
7. religious practices, affiliations or beliefs of the student or the student's parent/guardian
8. income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program)
9. social security number

School personnel responsible for administering any such survey, assessment, analysis or evaluation shall give written notice at least two weeks in advance to the student's parent/guardian or the eligible student and shall make a copy of the document available for viewing at convenient times and locations. The notice shall offer to provide the following written information upon request:

1. records or information that may be examined and required in the survey, assessment, analysis or evaluation
2. the means by which the records or information shall be examined, reviewed, or disseminated
3. the means by which the information is to be obtained
4. the purposes for which the records or information are needed

5. the entities or persons, regardless of affiliation, who will have access to the information; and
6. a method by which a parent/guardian can grant or deny permission to access or examine the records or information

These notice provisions also apply to any survey, analysis or evaluation funded by the U.S. Department of Education.

Exceptions to policy

Nothing in this section of the policy shall:

1. prevent a student who is working under the supervision of a journalism teacher or sponsor from preparing or participating in a survey, assessment, analysis or evaluation without obtaining consent as long as such participation is not otherwise prohibited by law
2. be construed to prevent a district employee from reporting known or suspected child abuse or neglect as required by state law
3. be construed to limit the ability of a health professional that is acting as an agent of the school district to evaluate an individual child
4. be construed to require parental notice or consent for a survey, assessment, analysis or evaluation related to educational products or services for or to students or educational institutions. These products and services include, but are not limited to, the following:
 - college or other postsecondary education recruitment or military recruitment activities
 - book clubs, magazines and programs providing access to low-cost literary products
 - curriculum and instructional materials used by district schools
 - tests and assessments used by district schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students
 - the sale by students of products or services to raise funds for school-related or education-related activities
 - student recognition programs
5. be construed to require parental notice or consent for assessments used to collect evidence of what a student knows and is able to do and to measure a student's academic progress toward attaining a content standard
6. limit the ability of the district to administer a suicide assessment or threat assessment

Surveys, assessment, analysis or evaluation for marketing purposes

Parents/guardians and eligible students shall receive notice and have the opportunity to opt a student out of activities involving the collection, disclosure or use of personal information collected from the student for the purpose of marketing or selling that information or otherwise providing the information to others for that purpose.

Annual notice

At the beginning of each academic year, the district shall inform parents/guardians and eligible students that the parent/guardian or eligible student has the right to consent before students are required to submit to a survey that concerns one or more of the protected areas and to opt out of the following:

1. activities involving the collection, disclosure or use of personal information collected from students for the purpose of marketing or for selling that information;
2. the administration of any protected information survey; or
3. any non-emergency, invasive physical examination or screening (other than a hearing, vision or scoliosis screening) that is:
 - required as a condition of attendance;
 - administered by the school and scheduled by the school in advance; and
 - not necessary to protect the immediate health and safety of the student or of other students.

Psychiatric/psychological/behavior testing methods or procedures

School personnel are prohibited under state law from recommending or requiring the use of psychotropic drugs for any students. They are also prohibited from testing or requiring testing for a student's behavior without giving notice to the parent/guardian describing the recommended testing and how any test results will be used. Prior to conducting any such testing, school personnel shall obtain written permission from the parent/guardian or eligible student in accordance with applicable law.

School personnel are encouraged to discuss concerns about a student's behavior with the parent/guardian, and such discussions may include a suggestion that the parent/guardian speak with an appropriate health care professional regarding any behavior concerns that school personnel may have. Only those persons appropriately

certified or licensed may expose students to any psychiatric or psychological method or procedure for the purpose of diagnosis, assessment or treatment of any emotional, behavioral or mental disorder or disability. Such methods or procedures may only be performed after acquiring written permission from a student's parent or guardian, or from the student in those circumstances in which federal or state law allows the student to obtain such services in confidence or without prior notice to the parent/guardian.

Licensed school personnel are encouraged to be knowledgeable about psychiatric or psychological methods and procedures but shall not be involved in any diagnosis, assessment or treatment of any type of mental disorder or disability unless appropriately certified. In accordance with state law, school personnel including certified school psychologists are not authorized to practice psychotherapy or utilize any psychiatric or psychological procedure outside of or beyond their area of training, experience or competence.

Ordinary classroom instruction, activities and techniques involving the approved curriculum that teach about psychological or psychiatric methods or procedures shall be permissible and considered outside the scope of this policy. It is understood that there is a significant difference between practicing therapy and providing activities that may be therapeutic in nature. Any teacher who questions whether a planned activity is one involving psychiatric or psychological methods or procedures for which the teacher may not be properly certified or licensed shall consult with the school principal.

Special education evaluation

The giving of parental permission for evaluation or re-evaluation of a student with disabilities and any required consent to the provision of special education services to a student with disabilities is governed by state and federal law and is outside the scope of this policy.

Notification of Rights Under the Protection of Pupil Rights Amendment (PPRA)

File: JLDAC-E

PPRA affords parents/guardians certain rights regarding the conduct of surveys, collection and use of information for marketing purposes, and certain physical exams. These include the right to:

1. Consent before students are required to submit to a survey that concerns one or more of the following protected areas ("protected information survey"), if the survey is funded in whole or in part by a program of the U.S. Department of Education (ED):
 - a. Political affiliations or beliefs of the student or student's parent/guardian.
 - b. Mental or psychological problems of the student or student's family.
 - c. Sex behavior or attitudes.

- d. Illegal, anti-social, self-incriminating, or demeaning behavior.
 - e. Critical appraisals of others with whom respondents have close family relationships.
 - f. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers.
 - g. Religious practices, affiliations, or beliefs of the student or parents/guardians.
 - h. Income, other than as required by law to determine program eligibility.
2. Receive notice and an opportunity to opt a student out of:
 - a. Any other protected information survey, regardless of funding.
 - b. Any non-emergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student.
 - c. Activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.
 3. Inspect, upon request and before administration or use:
 - a. Protected information surveys of students.
 - b. Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes.
 - c. Instructional material used as part of the educational curriculum.

These rights transfer from the parents/guardians to a student who is 18 years old or an emancipated minor (“eligible student”) under state law.

The district will develop and adopt policies, in consultation with parents/guardians, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes.

The district will directly notify parents/guardians of these policies at least annually at the start of each school year and after any substantive changes. The district will also directly notify, such as through U.S. Mail or electronic mail, parents/guardians of students who are scheduled to participate in the specific activities or surveys noted above and will provide an opportunity for the parent/guardian to opt his or her child out of participation in the specific activity or survey. The district will make this notification to parents/guardians at the beginning of the school year if the district has identified the specific or approximate dates of the activities or surveys at that time.

For surveys and activities scheduled after the school year starts, parents/guardians will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys.
